

WAR DEPARTMENT WILL QUADRUPLE CAVALRY FORCE IN STRIKE REGION

Secretary Garrison Issues
Order After Long Con-
ference With Wilson

COULD NOT COVER FIELD

Asserts Five Troops of Cavalry
Now in Coal Fields Could
Not Cover Territory Involved

NO DISARMAMENT ORDER

WASHINGTON, May 1.—Orders to quadruple the force of federal cavalrymen in the Colorado strike regions went from the war department late tonight. The entire eleventh regiment from Fort Oglethorpe, Georgia, and two troops of the twelfth from Fort Robinson, Nebraska, were ordered to proceed to the scene at once, Col. James Lockett of the eleventh to take supreme command of the situation.

Secretary Garrison issued the orders after a long conference with President Wilson. He said the step was taken not because trouble was expected, but because it had been demonstrated that the five troops of cavalry now in the coal fields did not provide enough men to cover the large territory involved. Reports from Colorado tonight, the secretary added were very favorable.

The twelve troops of the Eleventh will be distributed through the Trinidad, Walsenburg, Aguilar and Forbes districts and the two troops from the Twelfth will go to Boulder, and Louisville.

What soldiers shall be sent will be announced later by the war department. An appeal for more forces came today from Governor Ammons and was the subject of discussion at the cabinet meeting. Secretary Garrison later went to the white house with maps of the coal regions to demonstrate that the troops already sent were not sufficient to guarantee peace and order. The president agreed and told the secretary to send whatever troops he thought best.

Representative Keating of Colorado had told M. Garrison that three separate sets of troops were needed in Colorado and under the present arrangement only two general localities were covered. He said that a greater force was needed in the northern or Boulder district. Secretary Garrison said he had issued no instructions for disarmament in the coal fields. He said he would take no action in this respect until he had received a full report on conditions in the strike zone from the officers on the scene.

"I have requested information," the secretary added, "as to what classes of citizens are carrying guns and what use is being made of them."

SITUATION IS UNCHANGED.

Denver, Colo., May 1.—State and federal authorities co-operated today in an effort to settle the Colorado strike of coal miners but tonight the situation was still unchanged except that there had been no violence reported. Regular troops occupy the Trinidad, Fremont county and Walsenburg districts and state troops are still in service at Ludlow and in the Northern Coal Fields.

At the direction of Major Holbrook additional state troops late today were sent from Ludlow to Aguilar. The action of Secretary Garrison in granting the joint request of Major Holbrook and Governor Ammons for more federal troops announced late today has served to allay uneasiness in quarters where it was feared the quota of regular soldiers would not be sufficient to maintain order.

While Major Holbrook and Governor Ammons today were devoting efforts to secure additional troops the question of disarming of strikers and mine employees remained in a secondary position. Weather conditions prevented action by the strikers who had planned to vote on the question. On behalf of the operators, J. F. Welsh, president of the Colorado Fuel & Iron company announced that the miners and guards would be disarmed whenever such action was deemed expedient by Major Holbrook.

ROUTE TO TRINIDAD.

Horace N. Hawkins, chief counsel and John Lawson, international executive board member of the United Mine Workers of America are enroute to Trinidad to discuss with Major Holbrook the question of disarmament. In a telegram addressed to Martin Foster, chairman of the house committee on mines and mining, the presidents of twenty-one Colorado companies reiterated their willingness to agree to a settlement of the coal strike on the terms suggested by Governor Ammons in a letter of Nov. 27, 1913, which was laid before representatives of miners and operators on that date.

Governor Ammons in the letter urged that the point of recognition of the union be waived but that the miners be permitted to maintain their organization. He urged further that the operators guarantee the employment of a check-weights man; abolish the scrip system; observe the regulations of the eight-hour law; permit employees to trade a church turned over during a joy ride.

of the semi-monthly pay day; observe to the letter, all the provisions of the coal mine inspection law and employ again all strikers whose places had not been filled and who had not been guilty of law violation during the strike.

The telegram includes the letter of Governor Ammons and says:

"The strikers refused to accept the terms of settlement proposed by the governor and approved by the operators and all the disorder and bloodshed in this state since November 27th, has been due to this attitude of the officers and members of the United Mine Workers of America. We still consider the plan of the governor legally and industrially sound and have never retracted our formal approval thereof."

Unruly Crowds in New York. New York, May 1.—May day demonstrations by Socialists, Industrial Workers of the World, Anarchists and Anti-Rockefeller agitators kept the police active in several parts of the city today. More than 10,000 persons poured into Union Square late in the day after socialist parades in the streets. The crowds became unruly and the police forced flying wedges and cleared the square. During the disorder several persons were injured.

The "free speech" movement of protest against what its sponsors designate as John D. Rockefeller, Jr.'s, policy in the Colorado mine controversy was continued throughout the day in front of Mr. Rockefeller's offices at 26 Broadway. Upton Sinclair, author head of the movement was released from the Tombs after payment of the fine imposed when he was arraigned yesterday for doing picket duty. Weak from lack of nourishment because of his hunger strike in the Tombs, Sinclair went to the district attorney's office to prepare an appeal from his conviction and then resumed his place among his crepe sleeved followers at 26 Broadway. He announced that the "free speech" picketing would be kept up as long as the Colorado strike continued.

Mr. Rockefeller did not appear at his office and it was stated that he was distressed by his ordeal and would remain in seclusion in his Pontiac Hills home, in Westchester county.

Police Guarding Church.

Tonight police guarded the Calvary Baptist church, which Mr. Rockefeller attends. There were rumors that an attempt would be made to disturb the Friday evening prayer meeting. There was no demonstration outside the church but one of a number of Socialists who attended the business meeting held after the prayer service offered a resolution for the gathering to vote whether they "upheld" Mr. Rockefeller. The vote was in the affirmative. The Socialist asked the pastor, the Rev. Cornelius Woelfkin, whether he thought Christ would sustain Mr. Rockefeller. The pastor did not reply, but declared the meeting had adjourned prior to the vote on the resolution. At the request of an usher, a police lieutenant advised the Socialists to leave church and they did so quietly. Mr. Rockefeller conducts a Bible class each Sunday in this church.

Refugees Arrive at San Diego.

San Diego, Cal., May 1.—Driven from their homes by an anti-American outbreak, 159 refugees reached here today from Manzanillo.

The majority of the refugees are from Guadalajara, the second city of Mexico and tributary territory,

the others coming from Colima and Manzanillo. There are 125 men, sixty women and seventy-two children.

According to the refugees anti-American demonstrations were held by the Mexicans, the press was given over to the most alarming reports and editorial insults were hurled at Americans in the streets and threats of wholesale assassination were made.

The Siberia, a passenger list of

seventy-one persons in the first cabin, about fifty in the second cabin and about four hundred in the steerage. The report of the accident caused much excitement here as one board the vessel were Mrs. Francis Burton Harrison, wife of the governor-general of the Philippines Islands; Mrs. John B. Renters, wife of the newly appointed British consul to Manila, and a large number of other well known persons.

DANVILLE FRANCHISE MAY BE SOLD TO ROCK ISLAND

Unless fans in Danville come to support of the team the franchise will be transferred by the owners.

Danville, Ills., May 1.—Unless

baseball enthusiasts of Danville come to the rescue and guarantee J. W. Plaster and J. M. Boyle, owners of the local Three Eye League franchise against loss during the present season the franchise will be transferred to Rock Island. Manager Boyle who recently visited that city, states an organization has been formed there ready to invest in the franchise immediately.

While refugees from Guadalajara were at the wharf a vessel though to be an American warship was sighted and a Mexican wearing Red Cross badge rushed into the American consulate, tore from the walls two large American flags and carried them outside, where Mexicans tore them into strips, spat upon them, stamped on them and then set fire to them.

The wharf was cleared preparatory to blowing it up with dynamite and the Americans there were marched to the consulate. The refugees assert a massacre of the Americans was regarded as a certainty if the vessel had been a warship. When it was determined that the ship was not a United States war vessel the Americans were released. The military escorts were provided on the trains carrying refugees from the Guadalajara and Colima, but the soldiers made no efforts to stop anti-American demonstrations at the stations enroute. The Americans were searched by officers and all firearms and silver money in their possession was confiscated. The trains were repeatedly stoned.

The American refugees believed that a American or other vessel sent by the American vessel would meet them at Manzanillo but found that no provision for removing them from the country had been made.

When the refugees left Manzanillo that port was being evacuated and tunnels and bridges on the railroad line to Manzanillo had been mined

preparatory to destroying them in the event of an American invasion.

It was reported when the Americans were leaving that the Mexican government would confiscate all gold and silver mines and work them itself.

The refugees include most of the leading business men of western Mexico. They were forced to close their places of business or turn them over to Mexican employees. Before the Americans left confiscation of their personal property by police and military authorities was commenced.

When the anti-American outbreak

occurred Governor del Gardillo of Colima announced that no Ameri-

STEAMER SIBERIA IS SAFELY IN PORT; VOYAGE UNEVENTFUL

PACIFIC MAIL STEAMER RE- PORTED IN DISTRESS ARRIVES SAFELY AT MANILA

CONFUSE CALL LETTERS

Captain Believes False Report
Arose Over Confusion In Call
Letters of Persia with S.O.S.

WIRELESS CONDITIONS BAD

MANILA, May 1.—The Pacific Mail Steamer Siberia arrived here at 11 o'clock today. Her captain reports that the vessel had an uneventful voyage from Nagasaki to Manila. Captain Zeeder of the Siberia expressed the belief the the reports in circulation yesterday and last night that his vessel was in distress off the coast of Formosa and had sent out calls for assistance arose over confusion in the call letters of the Steamer Persia, "M. B. S." being mistaken for "S. O. S." the marine wireless request for aid.

The wireless operator on board the Siberia said the atmospheric conditions yesterday had been bad, making the sending of wireless messages difficult.

The first report that the Siberia was in distress was a wireless message received at Ogezakai station in Japan. It was said to come direct from the Siberia early Friday morning and said that the steamer had met with an accident and was in distress.

The message was mutilated and no further information could be gleaned from it.

The message was communicated to the Great Northern Steamer Minnesota and the British Cruiser Minotaur and the Japanese government ordered the Steamer Kanito Maru from a Formosan port and several warships to the scene of the reported wreck.

The Siberia had a passenger list of

seventy-one persons in the first cabin, about fifty in the second cabin and about four hundred in the steerage.

The report of the accident caused much excitement here as one

board the vessel were Mrs. Francis

Burton Harrison, wife of the gov-

FARMERS NOTICE

We Are Now Manufacturing Fertilizers For Soil

We have made a careful study of soil conditions and are now putting up an article which is considered the best on the market for INCREASED YIELD Of Corn or Oats. The same has the following analysis:

Bone phosphate 63.09 per cent.
Phosphoric acid 28.90 per cent.
Nitrogen 2.53 per cent.
Ammonia 3.07 per cent.

If you will carefully compare the analysis of our ROYAL BRAND BONE MEAL, you will find that the same is cheaper than the use of Rock Phosphate or any other fertilizers which are now on the market.

It only requires from 100 to 150 pounds of our BONE MEAL to an acre of soil, depending upon the condition of the soil. This will increase your yield of corn or oats from 10 to 20 bushels to the acre for the first year.

WHITE HALL WINS ATHLETIC CONTEST

GREENE COUNTY SCHOOL TAKES HONORS EASILY.

Western Illinois High School League
Draws Large Crowd to the City—
Garvin of Pittsfield Lowers Mile
Run Record—Next Meet in Jacksonville.

	Points.
White Hall	44
Beardstown	25
Jacksonville	21
Virginia	14
Ashland	12
Pittsfield	6
Greenview	2
Petersburg	1
Tallula	1
Winchester	0

White Hall High School had no trouble in winning the honors in the Western Illinois High School League meet held on Illinois field Friday afternoon. They made 44 points, almost double the number of points of their nearest opponent, Beardstown. Some had picked Beardstown as the winner on account of Jacksonville team being weakened because Canon was not allowed to compete. The meet was a strong one from start to finish and the day being ideal, there was an unusually large crowd present, the bleachers being entirely filled and many standing outside of the ropes. The meet was under the management of Illinois college and they pulled the different events off on clock time. Plenty of marshalls were on the grounds to keep the crowds back and the crowd was the most orderly that has been seen on the campus at similar gatherings for a number of years. At the business session of the meeting it was voted to hold the next meet next year in Jacksonville and the same officers of the association were re-elected.

Breaks Mile Record.

In the various athletic events two records were broken during the meet, that of the mile run and high jump. Garvin of Pittsfield lowered the former mile record made by Conroy of Pittsfield, in 1911 from 4 min. 58 3/5 sec. to 4:42 2/5 sec. There were six men who entered in this race, Carter being the Jacksonville representative. The other close contestant for the honors was Vertrees of White Hall. The sprint that Garvin made in covering the last lap of the race was phenomenal. He ran in pretty form and although far ahead in the lead over his nearest opponent, Vertrees of White Hall, he took on an extra gait and crossed the line with a record that will perhaps stand for a long time in the history of the W. I. H. S. meet. (He came almost equaling the Illinois college record set by Dr. Sylvester Carter a number of years ago when he covered the distance in 4 min. 41 4/5 sec. The pace set for Garvin was not a fast enough one for him and old athlete heads believe that the youngster could have covered the distance in five seconds less time.

In the fifty yard dash Campbell of White Hall was set back three feet for beating the gun and yet at that he finished so close with W. Strubling and Knight of Beardstown that the judges had a hard time to decide just who did win the event. The time was 5 2/5 sec. which equalled the time made by Robinson of Virginia 14 years ago. The half mile was an exciting event won by Nevius of White Hall. Cooper of Virginia and Carter of Jacksonville were close on his heels. In the standing broad jump Ryle of Jacksonville and Lewis of Virginia tied for second honors and each were given two points. Ebers of Beardstown did well in the discus throw covering the distance of 104 feet. Boxwell ran a pretty race in the 220 hurdles for Jacksonville winning the event in 28 sec.

Campbell of White Hall who set a record of 5 feet 5 3/4 inches in the running high jump broke his own record yesterday, making the height of 5 ft. 6 1/2 inches. In trying for a record he crossed the bar at 5 ft. 7 1/2 inches.

In the summary White Hall received first place in six events, second in four events and third in two events; Virginia won first place in one event, second in three events and third in one event; Tallula got one point and Petersburg one point; Jacksonville got two firsts, three seconds and three thirds; Greenview got two thirds; Beardstown, three firsts, three thirds and one first and Ashland had one first, two seconds and one third.

The relay race, although it did not count any points was an exciting event and was won by Jacksonville, with Beardstown second and White Hall, third.

In the 220 yard run Crum of Jacksonville, who was in the dressing room of the college gymnasium claims that he did not hear the call for the race and therefore did not get to compete in the event. He was good at least for second place. Thomas of Pittsfield was also beyond the campus resting under a tree and claims he did not hear the call for the race. White Hall had such a lead in points that it would not have changed the figures much, even though both men had won first place. The winning of White Hall was really a credit to their athletes. The young men have been training hard and long for the meet and it was evident from their good showing they made at Griggsville recently that they would be strong contenders for the honors yesterday.

Summary of Events.

The summary of events follows: 50 yard dash—First, W. Strubling, Ashland; second, Knight, Beardstown; third, Campbell, White Hall. Time 5 2/5 sec.

Shot put—First, Treadway, Virginia; second, Burnett, White Hall; third, Armstrong, Petersburg. Distance 37 ft. 6 in.

Standing broad jump—First, Kinser, White Hall; second, Ryle, Greenview. Lewis of Virginia tied for second place. Distance 9 ft. 5 1/2 in.

Discus throw—First, Ebers, Beardstown; second, Suther, Jacksonville; third, Riley, Greenview. White Hall; second, Cooper, Virginia; third, Carter, Jacksonville. Time 2:15.

Running broad jump—First, Knight, Beardstown; second, Lewis, Virginia; third, Schoeneweis, Greenview. Distance 19 ft. 3 1/2 in.

220 yard hurdles—First, Boxwell, Jacksonville; second, Bridgewater, White Hall; third, Crum, Beardstown. Time 28 sec.

100 yard dash—First, Campbell, White Hall; second, Knight, Beardstown; third, W. Strubling, Ashland. Time 10 2/5 sec.

Running high jump—First, Kinser, White Hall; second, Whittle, Jacksonville; third, Lewis, Virginia. Height 5 ft. 6 1/2 in.

440 yard un—First, Roodhouse, White Hall; second, Strawn, Ashland; third, Hemphill, Jacksonville. Time 55 sec.

220 yard dash—First, Campbell, Jacksonville; second, Strawn, Ashland; third, Jones, Tallula. Time 24 2/5 sec.

Pole vault—First, Buecheit, Beardstown; second, Baldwin, White Hall; third, Scott, Pittsfield. Height 10 feet.

Mile run—First, Garvin, Pittsfield; Vertrees, White Hall; third, Carter, Jacksonville. Time 4:42 2/5 sec.

Hammer throw—First, Suther, Jacksonville; second, Ebers, Beardstown; third, Morrow, Beardstown. Distance 150 ft. 5 in.

The following were the officials: Referee—Coach W. T. Harmon. Starter—George J. Orear. Clerk of Course—Robbins Russel. Assistant—Karl Hill.

Track Judges—Dr. R. H. Tanner, J. Clarence Lukeman, Julian Frisbie, Ernest Alford, Prof. J. G. Ames.

Field Judges—Prof. P. F. Whisler, W. B. Miser, Hansel Wilson, Frank Morrison, W. J. Brady, Prof. W. L. Harris.

Time keepers—Prof. J. H. Rayhill, Terrance Brennan, Ray Bracewell, John Larson.

Official scorer—Durrell Hatfield. Assistant—Clyde Land.

Announcers—Harry McLaughlin, Floyd Holmes, Reuben Cohn.

EAGLES WILL PLAY

BARRY SUNDAY.

Fast Game is Expected at Nichols Park.—Line-up of Visitors.

A fast game of baseball is expected at Nichols' park Sunday afternoon when the Eagles baseball team will meet a team from Barry. Although the local men are expecting to annex the game, they are nevertheless expecting a hard contest and are prepared to play a fast game.

The Barry line-up follows: D. Bagnay, ss; Nichols, 3b; Fusleman, 2b; Richards, 1b; Mason, c; C. Bagley, rf; Snyder, cf; Brown, lf; Sikes, Maxey and Hulse, pitchers.

NARROWS SCHOOL

CLOSED FOR YEAR.

Picnic Dinner Held Yesterday—Miss Margaret Richards Will Teach There Next Year.

Friday was the last day of the Narrows school for the year, which has been successfully taught by Miss Margaret Richards. A picnic dinner was served on the lawn, the mothers of the children and others bringing well filled baskets and it is needless to say that the last day of school was happily spent. It might be said that Little Raymond Reynolds, aged 6 years, was the banner pupil for the entire year in that he had never missed a day nor been tardy once during the whole year, and he lives one and one-fourth miles from the school house. Miss Richards has been secured by the directors for next year's school. She presented Master Reynolds for his faithful attendance at school a nice present.

The pupils present were Elbert and Ernest Lair, Arthur and Austin Blackford, Lyncord and Raymond Reynolds, Irene Massey, Loucie Howe, Hattie Waters, Dorothy York, John Wasson, Frances Reynolds, Raymond Craig, and Harold Hemphill.

Those of the mothers and others present were Mrs. J. C. Lair, Mrs. E. J. Reynolds, Mrs. E. R. Hemphill and daughter Ruth, Mrs. Carl York, Mrs. Massey, Mrs. John Wasson, Mrs. Ralph Reynolds, Miss Bessie Black and Mrs. Ira Blackford.

In the summary White Hall received first place in six events, second in four events and third in two events; Virginia won first place in one event, second in three events and third in one event; Tallula got one point and Petersburg one point; Jacksonville got two firsts, three seconds and three thirds; Greenview got two thirds; Beardstown, three firsts, three thirds and one first and Ashland had one first, two seconds and one third.

The relay race, although it did not count any points was an exciting event and was won by Jacksonville, with Beardstown second and White Hall, third.

In the 220 yard run Crum of Jacksonville, who was in the dressing room of the college gymnasium claims that he did not hear the call for the race and therefore did not get to compete in the event. He was good at least for second place. Thomas of Pittsfield was also beyond the campus resting under a tree and claims he did not hear the call for the race. White Hall had such a lead in points that it would not have changed the figures much, even though both men had won first place. The winning of White Hall was really a credit to their athletes. The young men have been training hard and long for the meet and it was evident from their good showing they made at Griggsville recently that they would be strong contenders for the honors yesterday.

AUTOIST WITHOUT 1914 LICENSE IS ARRESTED.

B. W. Negus, who resides east of Jacksonville, was arrested and fined \$25 and costs Friday on a charge of not having a 1914 license. The arrest was the result of a visit of Secretary of State Harry Woods to this city. Mr. Woods did not come for the expressed purpose of looking up offenders of the law, but saw the car with an out-of-date license tag, got a deputy sheriff, swore out a warrant and had Mr. Negus arrested. It is understood that Mr. Woods is also investigating a number of other cases here and several car owners besides Mr. Negus are said to have overlooked the laws provision.

Brokers who seek other ways of making a living in hard times are not the only young men in New York whom the dancing craze has put on their feet, literally and figuratively. Students at some of the colleges and universities have found in the feminine desire to dance a more or less profitable means of earning money.

Most women want to dance nowadays, and out of this has grown the demand for the paid escort, who recently has become a noticeable feature of social life. At a dance which takes place at the end of the week in an uptown hotel the dancing men present are mainly the husbands or relatives of the members of the club. But these could not be dragged away from business for the mid-week dance, and as the women were determined to have partners they cast about for them. One suggested that college students might fill the bill.

The experiment was tried and was found successful and not expensive. It is said these partners receive \$1 or \$2 each at the end of the dance.

COMMISSIONERS HOLD MEETING

A meeting of the commissioners of the Maunaisteer Drainage District, with the engineer, H. L. Caldwell, and the attorney, L. O. Vaughn, was held Friday afternoon in the office of Mr. Caldwell.

MAPLE GROVE SCHOOL CLOSES WITH ALL DAY PICNIC FRIDAY

Five Graduates Are Presented With Certificates Entitling Them to Study in First Year of High School.

Maple Grove school in South Jacksonville, closed a successful year's work with an all day picnic Friday attended by pupils and their parents to the number of over two hundred.

The picnic was planned by the teachers and pupils and a long table, large enough to seat 150 people, was arranged under the large shade trees in the grove. The dinner was solicited from the parents by the pupils in a manner that provided a large quantity and great variety of good things to eat. After the dinner a baseball game was played between the boys and the men, which resulted in a victory for the boys by a score of 8 to 4.

The line-ups follow:

Boys team—Harry Weber, c; Harry Sandberg and Glidden Reeve, ss.

and p; Harold Sandberg, 1b; Carl Sandberg, 2b; Ralph Taylor, 3b; George Green, lf; Francis Doan, cf; Lee Goebel, rf.

Men's team—George Taylor, Arthur Masters, T. B. Reeve, H. Goebel, George LaRue, Ralph Crabtree, J. H. Reed, Charles Grimsley and John Hackett.

Prof. J. H. Reed presented the diplomas to those who have finished the eighth grade and made an excellent address. The graduates are: Glidden Reeve, Ray Sheppard, Iva Sheppard, Leda Stilwell and Gladys Harvey.

The picnic proved one of the most enjoyable held at Maple Grove for many years and the instructors, Prof. Reed and Miss

DR. HENRY POST DEAD AT HIS HOME IN ST. LOUIS

Deceased Lived in Jacksonville for Many Years and was Numerous Relatives Here—Graduated From Illinois College in 1861.

Jacksonville relatives of Dr. Henry Post have received the news of his death which occurred in St. Louis Thursday.

Henry McClure Post was the son of the late Rev. Truman M. Post, D. D., and his wife of St. Louis. Mrs. Post was a sister of the late Mrs. H. B. McClure of this city.

Dr. and Mrs. Post lived in this city for some years, he being a professor in Illinois college. They lived in the residence now occupied by Dr. T. J. Pitner. At the northwest corner of their grounds, but across the road west, lived Thomas Bateman, father of the late Hon. Newton Bateman, superintendent of public instruction for years, and president of Knox college. Unless the writer is mistaken, the kindly patronage of Dr. Post was the means of helping Newton Bateman through college, and giving that invaluable instruction to the state of Illinois, and to humanity. Dr. and Mrs. Post were two of the brightest and best people whom God ever gave to this world. It was not surprising that their second son, Henry M., was a bright and pleasant man.

He was graduated from Illinois college in the class of 1861, and was a member of the class of 1861.

Mr. Post was in great demand as a speaker at Sigma Pi banquets, and delivered the poem before that society in 1871, when Newton Bateman was the orator of the day, and Ensley Moore the historian.

Mr. Post became a lawyer, and entered upon the practice of his profession in St. Louis, which has been his home since his parents left here—about 1842.

Mr. Post was married, about 1865, to Miss Emma Robb, daughter of the late David Robb, of this city. Mrs. Post was a sister of the first Mrs. William Brown, mother of William, Lloyd and Clara Robb Brown. She was a graduate of Jacksonville Female academy and one of the most attractive young ladies Jacksonville has known.

H. M. Post had two brothers, the late Hon. T. M. Post of St. Louis, Mo., and Dr. Hayward Post of that city. It will be remembered that the latter married Miss Mary B.

Mr. Post was a kindly and genial soul, and man, and it is with sympathetic regret that the writer pens these words, expressive of the feeling of those who have known the Posts.

SPECIAL INDUCEMENTS OFFERED TODAY IN OUR READY-TO-WEAR AND MILLINERY DEPARTMENTS. J. HERMAN.

MAY.

Oh, hark! 'Tis the lark—

Oh, hear! 'Robin's "cheer"! —

May has come!

From far and near,

Sound the signals, sweet and clear,

May has come!

Oh, look! 'Cross the brook!

Oh, see! On bush and tree!

May has come!

Look here! See there!

Flowers are springing everywhere!

May has come!

Over-head, blue skies spread!

Below, grasses grow!

May has come!

High hopes! Good cheer!

Happiest season of the year!

May has come!

COURT NEWS

FINAL DAY OF SERVICE IN MORGAN COUNTY CIRCUIT COURT

Several Important Cases Were Filed Friday.—Railroads Defendants in Three Suits.

Friday was the last day of service in the circuit court for the May term and several cases were added to the docket. Spencer Carpenter by his attorney Wm. N. Hairgrove has brought suit against the C. P. & St. L. asking damages in the sum of \$650. Three horses belonging to

Mr. Carpenter were killed February 25, 1914, on the C. P. & St. L., and he alleges that the accident happened because the company's cattle guards were not in good condition.

J. W. Arnold has commenced a suit against the Wabash R. R. alleging damages in the sum of \$3,500.

He is represented by P. P. Thompson. The basis of the suit is the alleged fact that three cars of cattle shipped over the Wabash arrived in the market several hours later than scheduled and it is claimed

that they sold at 20c a hundred pounds less than would have been the case had they arrived earlier. The cattle weighed 65,407 pounds.

Gates, Straum and E. P. Kirby as trustees have brought suit through Kirby, Wilson and Baldwin, against R. B. Frost in an action of trespass on case on promises. A note for \$671.90 is the basis for the suit.

The city case against the C. & A. as a result of the Alton carrying liquor in this city in alleged violation of the city ordinance has been filed, being an appeal from a justice court.

The suit of Mrs. Mary Nunes against the W. A. is of more than usual interest. The suit is for \$3,500, and is brought to force the payment of an insurance policy of \$3,000 carried by the late Antonio Nunes. On account of circumstances connected with his death it is stated that the Woodmen have refused or at least delayed the payment of the policy. W. N. Hairgrove and Joan M. Butler are the attorneys for Mrs. Nunes.

LICENSED TO MARRY.

Herman E. Barrett and Miss Anna Edith Lawson, both of Woodson, were granted a license to marry yesterday. It was necessary for Miss Lawson's father to give his consent to the marriage as she is but sixteen years of age. Mr. Barrett's age is forty-seven.

ANNOUNCE ENGAGEMENT AT BIRTHDAY PARTY.

Announcement of the approaching marriage of Miss Celia Lane and Walter Bourn was made at a party given recently by Miss Estella Bourn at her home north of the city in honor of her eighteenth birthday. The home was beautifully decorated for the occasion in blue and white, cut flowers being used. During the evening various games were played and prizes were awarded to Vinton and Marie Bourn, Walter Young and Grover Lewis. Music was furnished by Miss Florence Bourn and Celia Lane and the engagement was made known by a cat with a card bearing the initials W. L. B. and C. L. being liberated in the room. At the cutting of the birthday cake Miss Madeline Bourn got the dime, Miss Mandie Haxton the needle, Grover Lewis the thimble and Walter Young the ring. The hostess was the recipient of a large number of beautiful presents. During the evening a three course luncheon was served.

Among the guests from a distance were Misses Maude Haxton and Florence Bourn of Jacksonville, and Miss Marie Bourn of Normal.

The bride-to-be is a daughter of Mr. and Mrs. Hiram Lane of Arenzville and is a graduate of the public schools of that place. She is a young lady held in high esteem by a wide circle of friends. The groom-to-be is a son

Car or Super-Car

That is the chief question men have to decide in buying a car to keep.

It overshadows everything else.

Almost any car is fit for normal service. There are very few cars which won't demonstrate well, or even run well for a season.

Then is it worth while to build or to buy a super-car like this Reo the Fifth?

Listen to our side of that question.

AFTER 27 YEARS

Mr. R. E. Olds, after 27 years of car building, says that all these extremes are essential. Not for normal conditions, not for one season service. But to meet shocks and strains—to withstand years of wear—to save troubles, repairs and upkeep, a car must be built like this. And no man in the world knows better about that than Mr. R. E. Olds.

WHAT WE REQUIRE

We have for years kept test cars on the road. Relays of drivers run them night and day at high speed on rough roads. After 10,000 miles of this reckless driving we take

the car apart and inspect it. We require every part to endure that rough service. And every driving part, after 10,000 miles, must remain almost like new. Every formula, test and specification is based on these requirements.

To insure this, all steel is made to formula and each lot is analyzed twice. Gears are tested in a crushing machine for 75,000 pounds per tooth. Springs are tested for 100,000 vibrations. Engines are put to five radical tests, then taken apart and inspected.

Then we require a big margin of safety. All driving parts in this 35-horsepower car must meet the usual tests required for a 50-horsepower engine.

IT STAYS NEW.

The result is a car that stays new. It doesn't grow noisy, doesn't show wear and doesn't give trouble. After years of use, with proper care, the car will run like new. It has strength enough for shocks. It has power enough for hills. There is no clashing of gears to wreck the transmission. There are no flaws, no weaknesses. Every part has vast over-capacity. A car built like this will save the average user hundreds of dollars in repairs and upkeep.

We want an opportunity to SHOW YOU that we can actually save you money on house furnishings.

Will you give us that opportunity. We are always glad to show you. No matter whether you are ready to buy or not.

WOMAN IN BAD CONDITION

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Montpelier, Vt. — "We have great faith in your remedies. I was very irregular and was tired and sleepy all the time, would have cold chills, and my hands and feet would bleed. My stomach bothered me, I had pain in my side and a bad headache most of the time. Lydia E. Pinkham's Vegetable Compound has done me lots of good and I now feel fine. I am regular, my stomach is better and my pains have all left me. You can use my name if you like. I am proud of what your remedies have done for me." — Mrs. MARY GAUTHIER, 21 Ridge St., Montpelier, Vt.

An Honest Dependable Medicine
It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for nearly forty years, and to-day hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

DANDRUFF AND FALLING HAIR Prevented by

Treatment with CUTICURA SOAP

And Cuticura Ointment. Directions: Make a parting and rub gently with Cuticura Ointment. Continue until whole scalp has been gone over. Next morning shampoo with Cuticura Soap. Shampoo alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair.

Cuticura Soap and Ointment sold throughout the world. Liberal samples of each mailed free, with 32-page book "Cuticura Ointment and Soap." Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

Planning for the Stork's Arrival

Among those things which all women should know of, and many of them do, is a dependend external application sold in most drug stores under the name of "Mother's Friend." It is a liquid and many and many a mother tells how it so wonderfully aided them through the period of expectancy. Its chief purpose is to render the tendons, ligaments and muscles so pliant that nature's expansion may be accomplished without the intense strain so often characteristic of the period of expectancy.

"Mother's Friend" may therefore be considered as definitely having a splendid influence upon the early disposition of the future generation.

Whatever induces to the ease and comfort of the mother should unquestionably leave its impress upon the nervous system of the baby.

At any rate it is reasonable to believe that since "Mother's Friend" has been a companion to motherhood for more than a century it must be a remedy that women have learned the great value of.

No mother, surely, could give the inexperienced mother than to suggest the daily use of "Mother's Friend" during the interval of expectancy.

Ask at any drug store for "Mother's Friend," a penetrating, external liquid of great help and value. And write to Bradford Regulator Co., 502 Lamar Bldg., Atlanta, Ga., for their book of useful and timely information.

The effect of this splendid external application is an expression of the thousands of women who have successfully used it and recommended it through two generations.

TRAVELERS PROTECTIVE ASSOCIATION HOLDING 24TH. ANNUAL SESSION

DELEGATES FROM ALL PARTS OF THE STATE HAVE COME FOR SOCIAL FEATURES AND BUSINESS PROGRAM.

Next Year's Convention Scheduled For Bloomington—D. E. McMaster of Abingdon Said to Be Leading Candidate for Presidency—Entertainment Program Arranged by Local Committees Pleases Visitors.

Although the twenty-fourth annual convention of the Travelers' Protective Association, Illinois Division, will not open in Jacksonville until this morning, hundreds of delegates accompanied by their wives arrived on Friday morning and afternoon trains. The program arranged for the entertainment for the visitors, both in the afternoon and evening, was of a kind that the delegates maintained will make them certainly remember Jacksonville with pleasure for a great many days to come.

The program today will begin with a parade, which is scheduled to move at 9:30 o'clock. The business session will be held at 10:30 in the Opera House. There seems to be a general understanding that next year's convention will be held in Bloomington and there will probably be no competition for this honor.

McMaster For President.

F. W. Dudley of Decatur, who is now serving as president, is confined to his home by illness, and at the sessions today D. E. McMaster of Abingdon will probably preside. This will be good training for him, however, as he is scheduled to be elected president at the business session today.

While it is not an invariable rule of the organization, it has become the custom to advance the first vice-president to the highest honor in the gift of the association. For the other offices rules of succession have not been the custom and so far as the secretary and treasurer are concerned he has some permanency to the office as state headquarters.

Visited Capps Mill.

The first event of Friday afternoon's program was a visit to the Capps' Woolen mill, where the visitors were taken in automobiles.

At the mill they were extended every courtesy and found a great deal to interest them in mill and factory, said to be the largest of the kind in the west. To most of the visitors it was a surprise to find that in one establishment they could follow the processes of making raw wool into finished garments.

From the woolen mill the visitors

were taken to Illinois Woman's college and there were joined by still others who had come in on the afternoon trains. They were shown through the various departments of the college and then listened to a splendid musical program. This was followed by luncheon and further mention of the delightful hours spent at the college is made below.

At School for 31.

Although the various posts throughout the state are already well represented the morning trains are expected to bring in at least one hundred additional delegates who are unable to come for anything but the business session. The visitors yesterday were enthusiastic about the program arranged in their honor by the local committees and also had a great deal to say about the tasty decorations on the square and the business streets adjoining.

It is undoubtedly true that Jacksonville never was more elaborately decorated than is true today and the uniformity of the decorative scheme has added a great deal to the beauty of the whole. The general effect is not due wholly to the business men of Jacksonville, although they have

taken to Illinois Woman's college and there were joined by still others who had come in on the afternoon trains. They were shown through the various departments of the college and then listened to a splendid musical program. This was followed by luncheon and further mention of the delightful hours spent at the college is made below.

ATHLETICS POUND VICTORY FROM JOHNSON IN NINTH

Walter the Invincible Is Unable to
Puzzle Philadelphia Sluggers Who
Win Game 7 to 6—Other American
League Results.

Philadelphia, May 1.—Philadelphia defeated Washington today by a batting rally in the ninth inning at the expense of Walter Johnson, who succeeded Boehling in the eighth inning. Barry of Philadelphia was badly spiked. The score: Washington .010 201 110—6 9 1 Philadelphia .200 001 102—7 18 7 Batteries—Boehling, Johnson and Ainsmith; Brown, Bush and Schang.

Browns, 3; Naps, 2.
St. Louis, May 1.—Early in the game today St. Louis got a lead Cleveland could not overcome and won 3 to 2. The score: Cleveland .010 000 001—2 6 1 St. Louis .200 100 000—3 5 3 Batteries—Hagerman, Collamore and Carisch; Taylor and Enzenroth.

Yankees, 6; Red Sox, 0.
New York, May 1.—Ray Caldwell pitched his second game of the season today and scored his second three hit shutout, New York defeating Boston 6 to 0. The score: Boston .000 000 000—0 3 2 New York .000 130 20—6 8 1 Batteries—Collins, Bedient, Foster and Cady; Caldwell and Sweeney.

Tigers, 3; White Sox, 2.
Detroit, May 1.—Detroit won the fourth straight game of the series from Chicago today, but not until after a ninth inning rally by the White Sox, who fell short by one tally of tying the count. The score: Chicago .000 000 002—2 5 3 Detroit .200 100 000—3 3 0 Batteries—Scott, Jasper, Wolfgang and Schalk; Dauss and Stange.

**CARDINALS ADMINISTER
SHUT OUT TO CHICAGO CUBS**

Robinson Holds O'Day's Players to
Two Hits and St. Louis Wins 2 to 0—Other National League Results.

Chicago, May 1.—Robinson held Chicago to two hits today and St. Louis shut out the locals 2 to 0. Chicago completed a triple play in the second, Miller singled and Maggio and Cruise walked, filling the bases. Snyder bled to Johnson and Robinson scored after the catch. The local outfielder threw to Leach who relayed the ball to Zimmerman who caught Cruise at second, then shot the ball to Bresnahan who caught Magee at the plate. The score: St. Louis .011 000 000—2 8 1 Chicago .000 000 000—0 2 1 Batteries—Snyder and Robinson; Humphries, Pierce and Bresnahan.

Giants, 11; Braves, 2.
Boston, May 1.—New York batted the delivery of Crutcher and Tyler to all parts of the field today and defeated Boston easily. The score: New York .201 001 106—11 16 0 Boston .100 000 100—2 11 3 Batteries—Marquard and Meyers; Johnson; Crutcher, Tyler and Gowdy.

Phillies, 8; Dodgers, 6.
Brooklyn, May 1.—Two poor plays by Catcher Fischer in the first inning today gave Philadelphia a two run lead and although Brooklyn tied the score at one stage of the game, the visitors won eventually. Philadelphia .200 003 201—8 11 0 Brooklyn .101 022 000—6 12 1 Batteries—Mayer and Killefer; Reulbach and McCarty.

Pirates, 4; Reds, 2.
Pittsburgh, May 1.—Pittsburgh won from Cincinnati this afternoon largely through the timely hitting of Mowery who drove in three of their four runs and scored the other himself. The score: Cincinnati .000 002 000—2 4 2 Pittsburgh .200 000 20—4 7 1 Batteries—Davenport, Benton and Rowan; Clarke; Conselman, McQuillan and Gibson.

**BALTIMORE FEDERALS
SHUT OUT KANSAS CITY**

Smith Yields But Three Hits and
Baltimore Wins 3 to 0—Other
Federal League Results.

Kansas City, May 1.—Frank Smith held the Kansas City Federals to three hits and Baltimore shut out the locals today. The score: Baltimore .010 000 110—3 8 0 Kansas City .000 000 000—0 3 0 Batteries—Smith and Jacklitsch; Cullop and Brown, Easterly.

Buffalo, 11; Indianapolis, 10.
Indianapolis, May 1.—Though Indianapolis scored eight runs in the first inning, Buffalo came from behind and won the opening game of the series in a ninth inning rally. Buffalo .300 112 004—11 13 2 Indianapolis .810 001 000—10 14 2 Batteries—Purroy, Schlitzer, Moran and Blair; Allen; Moseley and Rariden.

Brooklyn, 2; St. Louis, 1.
St. Louis, May 1.—Murphy in the single on second base in the eleventh inning this afternoon won for Brooklyn in the first game of the series with St. Louis. The score: Brooklyn .000 000 001—0 2 11 0 St. Louis .000 000 001—1 9 1 Batteries—Maxwell and Owens; Willett and Chapman.

Chicago, 3; Pittsburgh, 1.
Chicago, May 1.—Two doubles by Harry Fritz, sapping for Zeider at third base, were most important factors in Chicago's victory over Pittsburgh today. The score: Pittsburgh .000 010 000—1 5 1 Chicago .200 000 01—3 6 0 Batteries—Dickson and Berry; Watson and Wilson.

Knoles' hats and underwear.

DES JARDIEN PUZZLE TO IOWA.
Iowa City, Iowa, May 1.—With ten straight strikeouts in the first four innings Des Jardin of the University of Chicago pitched his team to an 8 to 0 victory over the University of Iowa here today. Not one Iowa player reached first base.

from the superintendent of public
documents, Washington, D. C. L.
H. Bailey gives thirteen points in
favor of windbreaks and four against
them in his "Principles of Fruit-
Growing."

Screening Unsightly Objects.

A Illinois farmer wanted to sell
his farm, but could not find a buyer.
The reason for this, which no one
realized, was the ugly, bad smelling
barnyard right across the road from
the house. One night the barn burned
down, and after that the farmer
sold his farm for more than he had
asked before. The reason was two-
fold: The unsightly barn was re-
moved, and a fine view of the prairie
which no one had ever seen was
revealed. Can't you arrange your
windbreaks so that it will also act as
a screen—hiding same barnyard,
outbuilding, telephone wires, bill-
board, or advertisement covered
building? The humblest renter in
Illinois can at least cover the out-
building.

INSURANCE TRAINING MUST BE BROAD

COURSES AT ILLINOIS UNIVERSI-
TY ARE SUGGESTED.

Illinois Laws With Reference to In-
surance are Said to Be Safe and
Used as Models Elsewhere—
Standards for Life Insurance Man-
agement Have Continually Be-
come Higher.

By Isaac Miller Hamilton, President
of Federal Life Insurance Compa-
ny, Chicago.
(Abstract of an address at University
of Illinois.)

In my judgment this university, located in the great state of Illinois, possessing the confidence and financial support of the state and encouraged by the able and sane laws of the state pertaining to life insurance, is in a position to make itself the peer if not the superior of any other university for the proper education and training of students for work in life insurance companies. The insurance laws of Illinois set a very high standard for other states. Its laws are safe and explicit without being burdensome.

They recognize the beneficence and importance of life insurance and do not seem to be designed to place unjust burdens upon policy holders. The Illinois standard of legal reserves is admitted universally to be safe and sound and is approximately as high as the statutory requirement of any other state; Illinois was one of the first, if not the first, state to pass a law requiring the certain standard provisions to be in every legal reserve policy, issued in Illinois, and prohibiting certain standard prohibitions, whether the policy be issued by a company of Illinois or of any other state. These laws of Illinois have since been freely copied by other states as their fairness and desirability became known.

The Illinois laws provide for an insurance superintendent, whose duty it is to enforce the provisions of the insurance laws and it is gratifying to note, that regardless of political party supremacy it seems now the well settled policy of the state that the insurance superintendent must be a man of integrity, and proven insurance ability. Laws of Illinois place no tax on life insurance companies either domestic or foreign unless the laws of some other state place excessive taxation on Illinois companies operating therein, in which case the Illinois reciprocal law requires the foreign company to pay in this state a tax equal to the tax which would be required of the Illinois company if operating therein. In such a favorable atmosphere it is but natural that your insurance course should be popular and should thrive and prosper. As life insurance laws should be taught in a life insurance course, it seems to me that to have such same state statutes to study will be a great advantage to you because when you have grasped them you will be better able to comprehend the inconsistencies of those laws which are unfair or ill-advised.

MEDICAL INSTRUCTION.

An insurance course might well contain special instructions on medical examinations and inspections because these are of great importance to all in any manner identified with legal reserve life insurance—the applicant, the policyholder, the agent and the company. This instruction could be made very interesting and just about as important as desired.

It may not be amiss to suggest the advisability of instructing the student as to the almost uniform honesty of the managements of life insurance companies. Seldom indeed, as compared to almost any other positions of responsibility and trust, have custodians of life insurance companies proved recreant to their trusts. The standard for officials of life insurance companies, always heretofore high, is becoming higher as the great social service being performed for humanity by the life insurance companies is becoming more fully realized by the public generally, so the student of life insurance aspiring to future prominence and honor in the life insurance field must determine to deserve it or he is doomed to disappointment.

In closing it seems proper to suggest that the students be taught that the greatest opportunities for conspicuous success in life insurance are in the agency department. Strange as it may seem it is nevertheless true that men must be persuaded to make provision for their loved ones or for their business interests through life insurance. Often they but one interview with a sincere and educated salesman to admit and do their duty; they will not act alone or on their own initiative. Talented salesmen are necessary to the sale of life insurance in any considerable volume. No other talent, except perchance occasionally that of a superior executive, is so generally recognized or liberally rewarded as that of salesmanship. When coupled to the talent to sell life insurance is that of attracting and training and holding and directing other salesmen of life insurance, the honors and awards are very great and the satisfaction of knowing of the immense service being done for humanity under his direction must make the possessor of this talent glad in the joy of living and doing. In no other field in my judgment is the opportunity for the properly educated man, even though

without money, position or influence, so great, nor the emoluments so certain and magnificent as in the selling of life insurance. To the honorable, high class, efficient and properly educated salesman of life insurance the most sacred doors of opportunity of all life insurance companies, wherever located, swing inward, with an unquestioned and hearty welcome.

FARMING IN INDIA PRESENTS INTERESTING DATA

Rice Is Staple Food and Has Been
Cultivated From Earliest Times—
Methods of Sowing Vary—Two
Kinds of Wheat Grown in Wide
Areas.

Rice has been cultivated in India from the very earliest times and is the staple food of a great portion of the people. The finest varieties and the largest yields are produced in sections which during the growing season afford a moderate degree of sunshine and a damp warm atmosphere. Rice is therefore, the staple crop in all areas of heavy and assured rainfall. The normal rice cultivated in India exceeds 100,000 square miles. Rice is everywhere grown in embanked fields. Level or nearly level beds are necessary because rain or irrigation water must be impounded and kept at a height which should vary as the crop forms.

A good rice crop is exhausting and liberal. Manuring is generally necessary to produce a valuable variety.

METHODS OF SOWING.

Rice is sown in three ways—broadcast, by drill and by transplanting from a seed bed where it has been sown broadcast. As a rule the first method is practical on inferior soil or where labor is scarce. Rice is drilled in some places, though this system is not common. The third method is much more usual than the others. Broadcast or drill, requires 80 pounds to 120 pounds of seed per acre, while the seed rate for transplanted crop varies from 30 pounds to 60 pounds per acre.

The seed beds are highly manured, sheep or goat droppings being a favorite application. The tillage is accomplished by hand implements. A seed bed should supply seedlings sufficient to transplant from six to ten times its own area. They are generally transplanted when 8 to 10 inches high.

In removing the seedlings from the nursery, the roots are washed in the water, and the seedlings are tied into bundles and carried to the fields where they are planted by hand. About four seedlings are planted together at intervals of 6 inches to 8 inches.

Broadcast and drilled rice receives a considerable amount of weeding. The field should be comparatively dry when the rice crop is harvested. The crop is cut with a sickle near the ground and laid in open bundles. These get dry in a few days and are tied into larger bundles and carried to the threshing floor. The grain is threshed by beating on a board placed over a large cloth so spread out as to catch the grain as it falls. The crop is also trampled under the feet of oxen and in this way all the grain can be separated. In good soil an average transplanted crop yields about 2,400 pounds of poddy (unhusked) rice per acre. There is a large export of rice from India.

WHEAT—AREA CULTIVATED.

India grows more than 31,000 square miles of wheat. There are two kinds of wheat grown, (a) "dry" crop wheat; (b) irrigated wheat.

The average devoted to the first one is not very large. Irrigated wheat is the most important and is grown in north of India, where it is very successfully raised by canal and well irrigation of the deep alluvial loam. Land is prepared between August and October with a plow.

Manure in light dressing is applied in September. Sowing begins in October and the seed which is applied at the rate of about 100 pounds per acre is sown through a seed tube attached to the plough or dropped by hand in the furrow. The crop takes about five months to "come to" maturity, and requires three or four waterings.

Wheat is reaped with a sickle. The crop is usually very dry when harvested and it can be threshed out under the feet of bullocks and grains separated. Irrigated wheat on liberally manured fields yields from 1,200 to 1,600 pounds on nearly 27 bushels per acre. Rust is a common enemy in cloudy weather.

Besides these, millet, barley, oats and maize are grown. The methods followed in the production of all these cereals are the same as have been described above.

Among other very important agricultural crops are tobacco, sugar cane, cotton and jute.

Almost all kinds of vegetables are grown.

ROTATION OF CROPS.

The practice of regular rotation of crops is followed in many parts of India. The farmer knows full well which crop generally exhausts the fertility of the soil if grown in succession. Growing of mixed crops is very common and this to a certain extent serves the purpose of rotation.

TILLAGE IMPLEMENTS.

In regard to tillage implements, India is very poor and in order to increase her produce to feed her teeming numbers, she can no longer use her light plough and cheap implements, but must introduce implements of better quality as those used in some of the western countries and in the United States. The implements are few in number and simple in construction.

PLANTING FLOWERS IN THE BEST WAY

VARIETIES OF FLOWERS AND
SOIL PREPARATION ARE IM-
PORTANT.

Cut Flowers Can Be Grown Most
Advantageously in the Vegetable
Garden Planting for Display—
Purpose of Flowers Should Gov-
ern the Selection of Kinds to Be
Grown.

By Augusta Evans, Extension Department, University of Illinois.

When the first warm days of spring arrive, every woman on the farm begins to think of planting flowers. Now the planting of flowers can be done just as intelligently as the planting of farm crops. Planning ahead saves time and labor. The four points to consider in planning are these: The use, location and varieties of flowers, and the preparation of the soil.

USES AND LOCATION.

Spade deeply, putting on a light dressing of well rotted manure if the ground is poor. Break up the clods of earth and if necessary spade a second time to secure a fine, moist seed bed. This is especially necessary in the border, where plants can not be cultivated. The fine roots of flowering plants can not penetrate heavy clods for moisture and food. Prepare the ground in the vegetable garden to a greater till of fineness than for the vegetables. Care in the preparation of the ground will pay well in the end.

Rake off the lumps of soil and leaves and then mark off the exact location for each kind of flower. In the border, plant in irregular masses, not in rows, and plant all the seeds of a variety in one mass. Plant tall growing plants like larkspur, dahlias, hollyhock, etc., in front of these. Plant alyssum, poppy, etc., for edging. Cover large seeds well. Sprinkle small seeds like poppy on the surface of the soil. Firm the soil over the seeds with a hoe.

In the Vegetable Garden.

The best place to raise cut flowers is in the vegetable garden. Sow the seed or plant the little plants or bulbs in rows like vegetables. They can then be most easily and effectively cared for with a hoe, wheel hoe or horse cultivator.

Flowers need cultivation and watering just the same as vegetables. Moreover, if given plenty of room and food, they give much larger blossoms. In the flower border each individual blossom is much smaller than the individual blossoms grown under proper conditions. In the flower border, the effect to be produced is that of a mass of bloom not large or abundant flowers. Here the plants are allowed to stand much closer together in order to secure this mass effect.

If the seed is planted when the soil is reasonably moist, there will not be necessity for watering unless the ground should become very dry.

Try to keep the surface soil well stirred to prevent formation of a crust and escape of moisture. Covering with brush or a board is an aid to germination during hot, dry weather.

HOW TO BUY SEED.

Avoid buying mixed seed or flowers of magenta color. It is best to order flowers from a seed catalogue where the exact color of each flower is given. Color effects in the flower garden are just as important as color in dress or in the home. To destroy clashes of color, plant white flowers. Good color combinations are golden orange and golden yellow, purple and gold. The best effect, however, can be secured by planting pure colors with plenty of white. It is now late to order seed from a catalogue, but if seed must be secured from a flower or seed store make an attempt to secure pure colors.

HOW TO PREPARE THE GROUND.

Spade deeply, putting on a light dressing of well rotted manure if the ground is poor. Break up the clods of earth and if necessary spade a second time to secure a fine, moist seed bed. This is especially necessary in the border, where plants can not be cultivated. The fine roots of flowering plants can not penetrate heavy clods for moisture and food. Prepare the ground in the vegetable garden to a greater till of fineness than for the vegetables. Care in the preparation of the ground will pay well in the end.

Rake off the lumps of soil and leaves and then mark off the exact location for each kind of flower. In the border, plant in irregular masses, not in rows, and plant all the seeds of a variety in one mass. Plant tall growing plants like larkspur, dahlias, hollyhock, etc., in front of these. Plant alyssum, poppy, etc., for edging. Cover large seeds well. Sprinkle small seeds like poppy on the surface of the soil. Firm the soil over the seeds with a hoe.

In the Vegetable Garden.

The best place to raise cut flowers is in the vegetable garden. Sow the seed or plant the little plants or bulbs in rows like vegetables. They can then be most easily and effectively cared for with a hoe, wheel hoe or horse cultivator.

Flowers need cultivation and watering just the same as vegetables. Moreover, if given plenty of room and food, they give much larger blossoms. In the flower border each individual blossom is much smaller than the individual blossoms grown under proper conditions. In the flower border, the effect to be produced is that of a mass of bloom not large or abundant flowers. Here the plants are allowed to stand much closer together in order to secure this mass effect.

If the seed is planted when the soil is reasonably moist, there will not be necessity for watering unless the ground should become very dry.

Try to keep the surface soil well stirred to prevent formation of a crust and escape of moisture. Covering with brush or a board is an aid to germination during hot, dry weather.

LEGUME CROPS HAVE DOUBLE IMPORTANCE

MUST BE USED TO OFFSET NITROGEN LOSSES IN CORN BELT.

Alfalfa and Clover Among the Most
Important Plants of This Class—
Legumes Have Value Not Only
for Soils But Also in Connection
With Animal Production—Crop
Rotation Plans.

By W. F. Handtein, University of Illinois—Article I.

For the Corn Belt live stock farmer, the legume crops have double importance. He, as well as all other farmers producing ordinary crops, must depend entirely upon the leguminous crops, such as alfalfa, clover, beans, cowpeas, soy beans, etc., to keep up the nitrogen content of his soil, without which his crop yields will soon decrease. Nitrogen is being constantly lost from our soils and manures through leaching, and also escapes as ammonia from heating manure. Considerable nitrogen is also removed from the farm in the sale of animals, milk, wool, and other animal products.

LEGUMES AND NITROGEN.

To offset all these nitrogen losses, the only practicable means of replenishing the supply is through the production of legumes, since these are the only class of plants which can take the free nitrogen of the air and use it in their growth. All of the ordinary non-leguminous crops, such as corn, oats, wheat, barley, etc., can take their nitrogen only from the soil, after it has been added either directly or indirectly by the legumes. Farm manure carefully handled will return about 65 to 75 per cent of the nitrogen contained in the crops fed, but except for legume crops, this has all come from the soil, so the amount returned will always be considerably less than that removed by the crops.

In the production of animals, the legume crops are also of great importance. This is especially true in the growing of young animals, and in the feeding of pregnant females and cows giving a heavy flow of milk. This is due to the fact that the legume crops contain larger amounts of protein (the nitrogen part of feeds), than most other crops; and protein is used largely in the formation of bone and muscle in the production of milk.

With these facts in mind, the Corn Belt live stock farmer should make a special study of the growing of legume crops and their use in animal production. He should select his legumes with two aims in view: First, getting the greatest growth, which means, in the main, the greatest gain in nitrogen; and second, getting the greatest feeding value for his animals.

ALFALFA GIVES BEST RESULTS.

Alfalfa, perhaps, combines the two qualities in the highest degree. It yields more tonnage per acre than almost any other legume, and is a palatable and efficient feed for almost all classes of live stock. It is still somewhat in the experimental state in many corn belt sections, or at any rate, a large majority of corn belt farmers have not yet learned to grow it with the degree of certainty with which they grow their general farm crops. It is being successfully grown over a larger area and by a larger number of farmers each year, however, and as their experience increases they will be more sure of getting a stand and of keeping it when they once get it.

Owing to the fact that alfalfa, when once well established, is usually best left down for four to six years, it does not fit into ordinary rotation very well. That is, if the alfalfa is to be fitted into the rotation, the rest of the rotation must usually run all of the way around, four or five years, before the alfalfa field is broken up and a new started. This makes a complete rotation, including alfalfa, run 20 to 25 years, and also make it necessary, even with a perfect record with alfalfa, to include a legume crop in the regular rotation, in order to keep up the nitrogen supply. Such a rotation might be corn, corn, wheat or oats, followed by clover.

(In a succeeding article we shall discuss how red clover fits in with rotation and when clover fails, the possibility of soy beans.)

CHAMBERLAIN'S LINIMENT.

This preparation is intended especially for rheumatism, lame back, sprains and like ailments. It is a favorite with people who are well acquainted with its splendid qualities. Mrs. Charles Tanner, Wahab, Ind., says of it, "I have found Chamberlain's Liniment the best thing for lame back and sprains I have ever used. It works like a charm and relieves pain and soreness. It has been used by others of my family as well as myself for upwards of twenty years." 25 and 50 cent bottles. For sale by all dealers.

EXPOSITION OPENS AT LYONS.

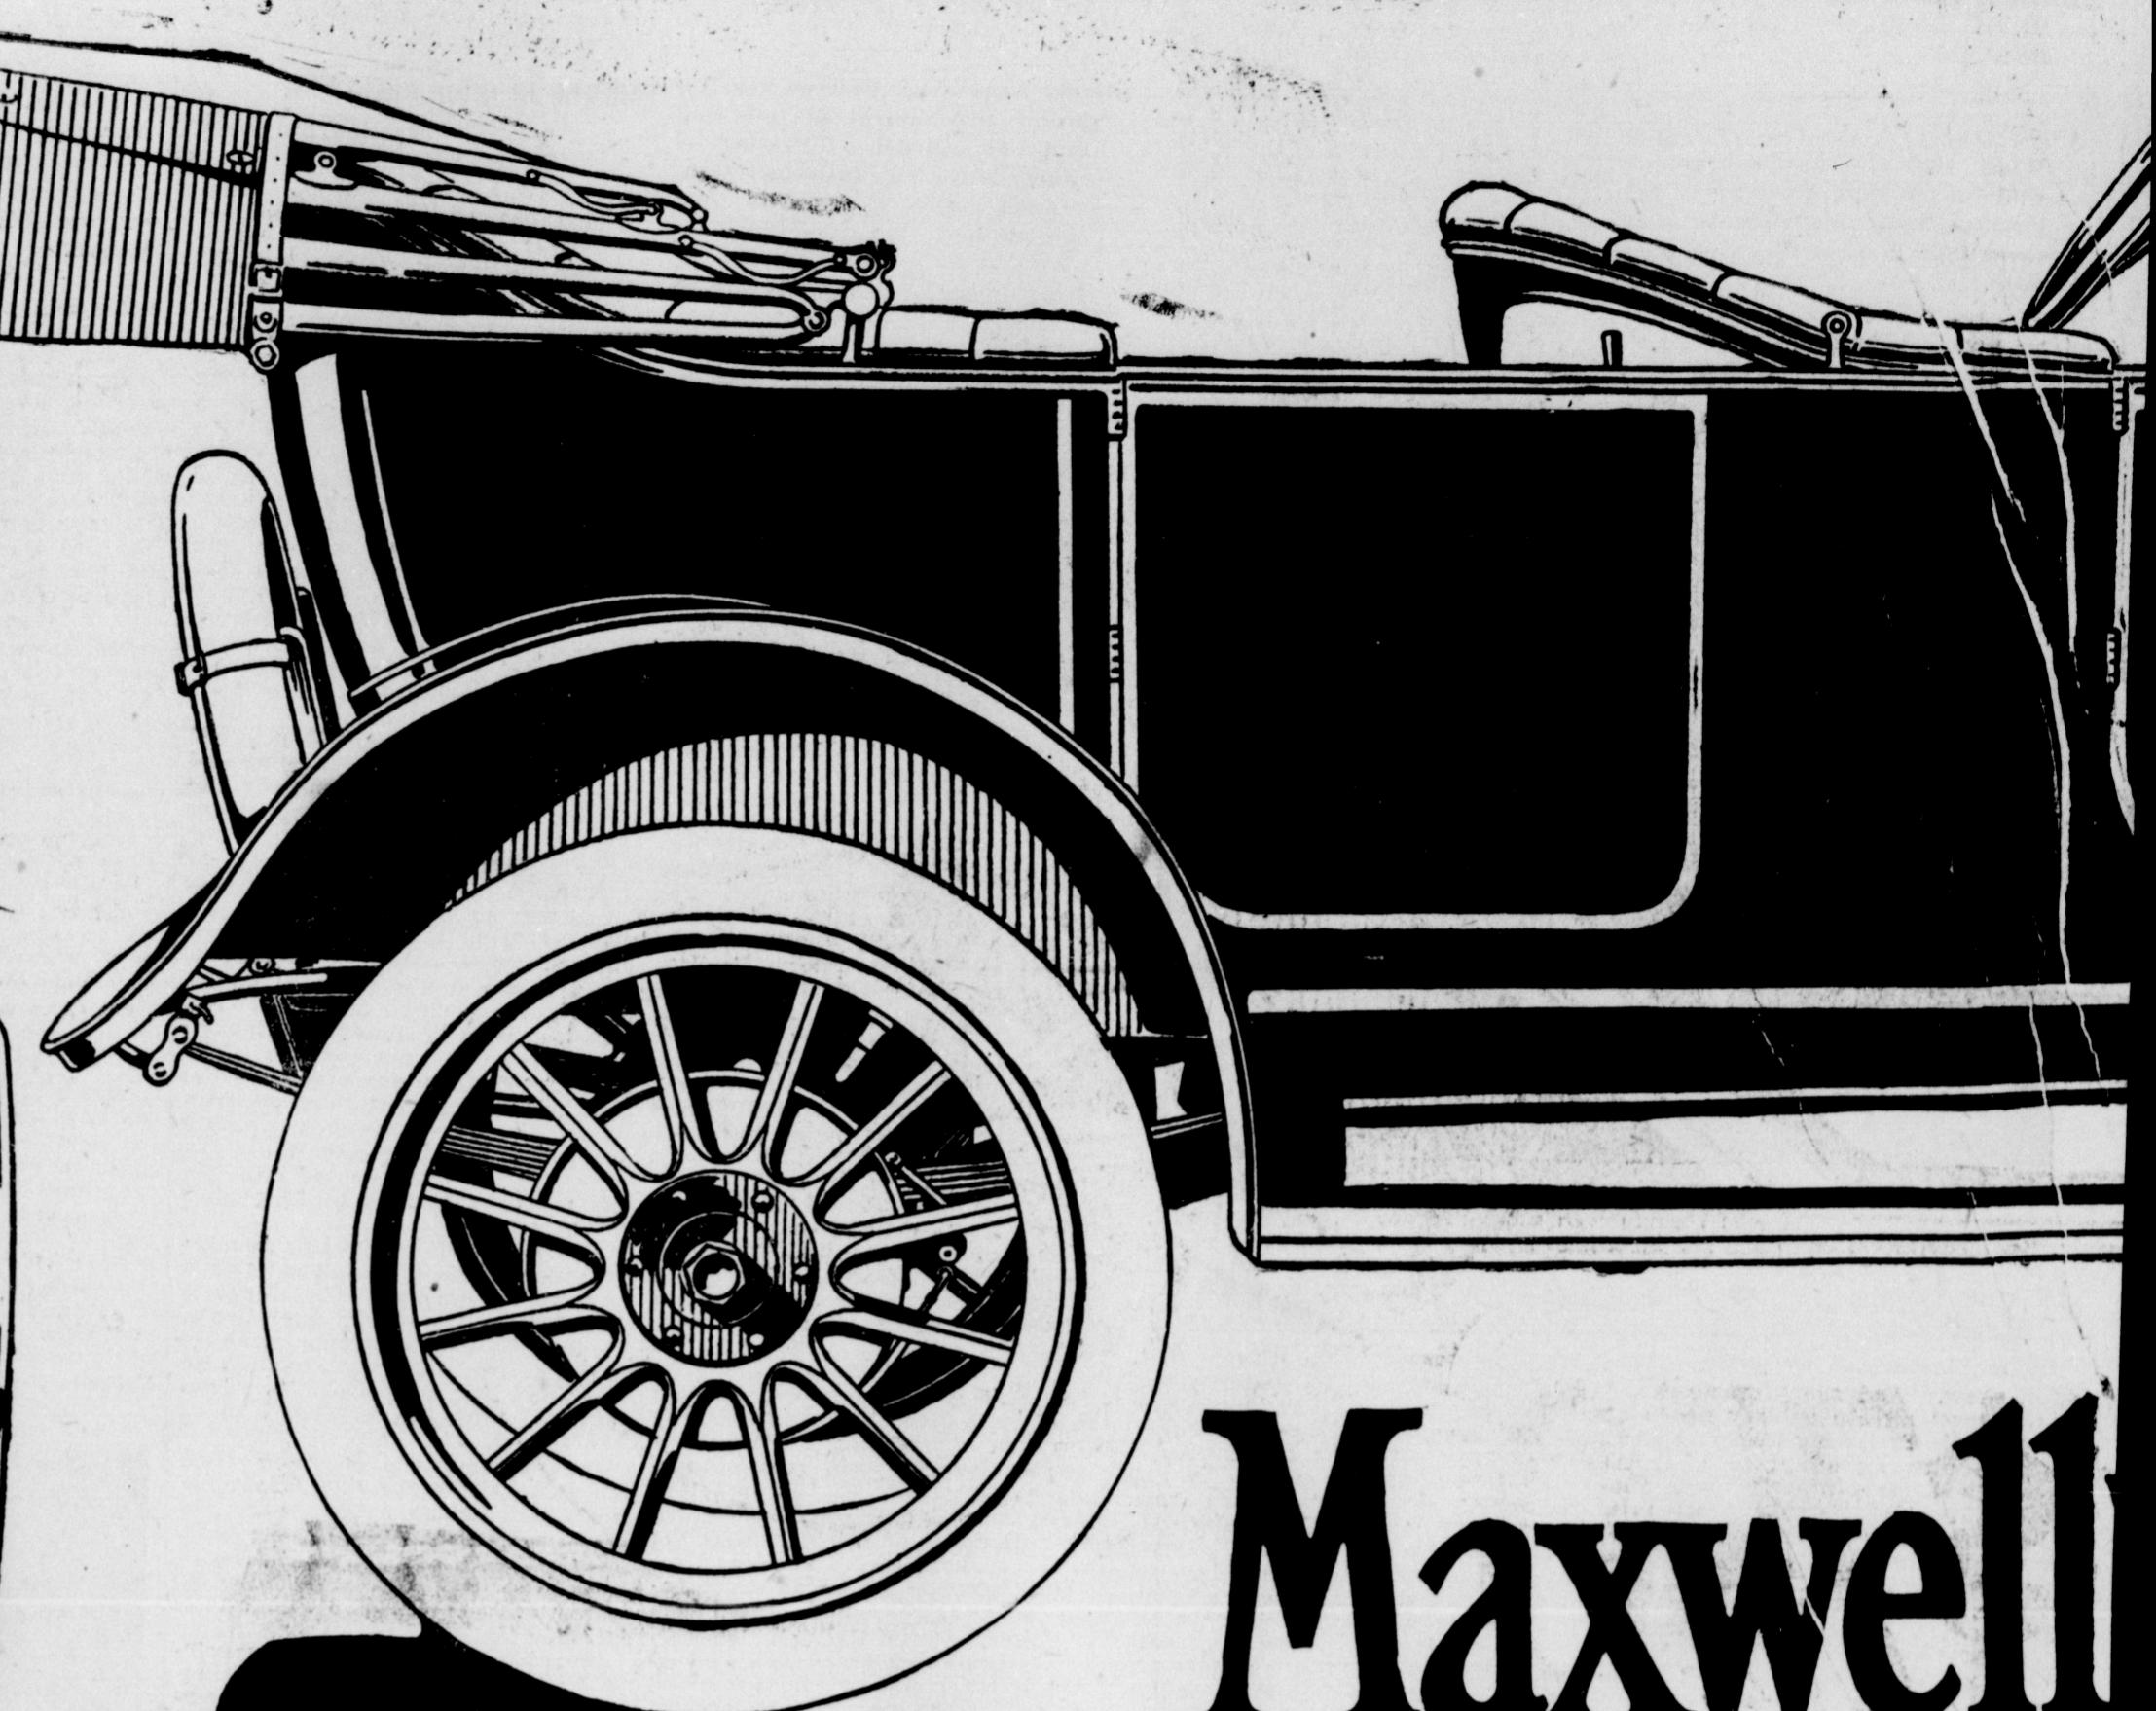

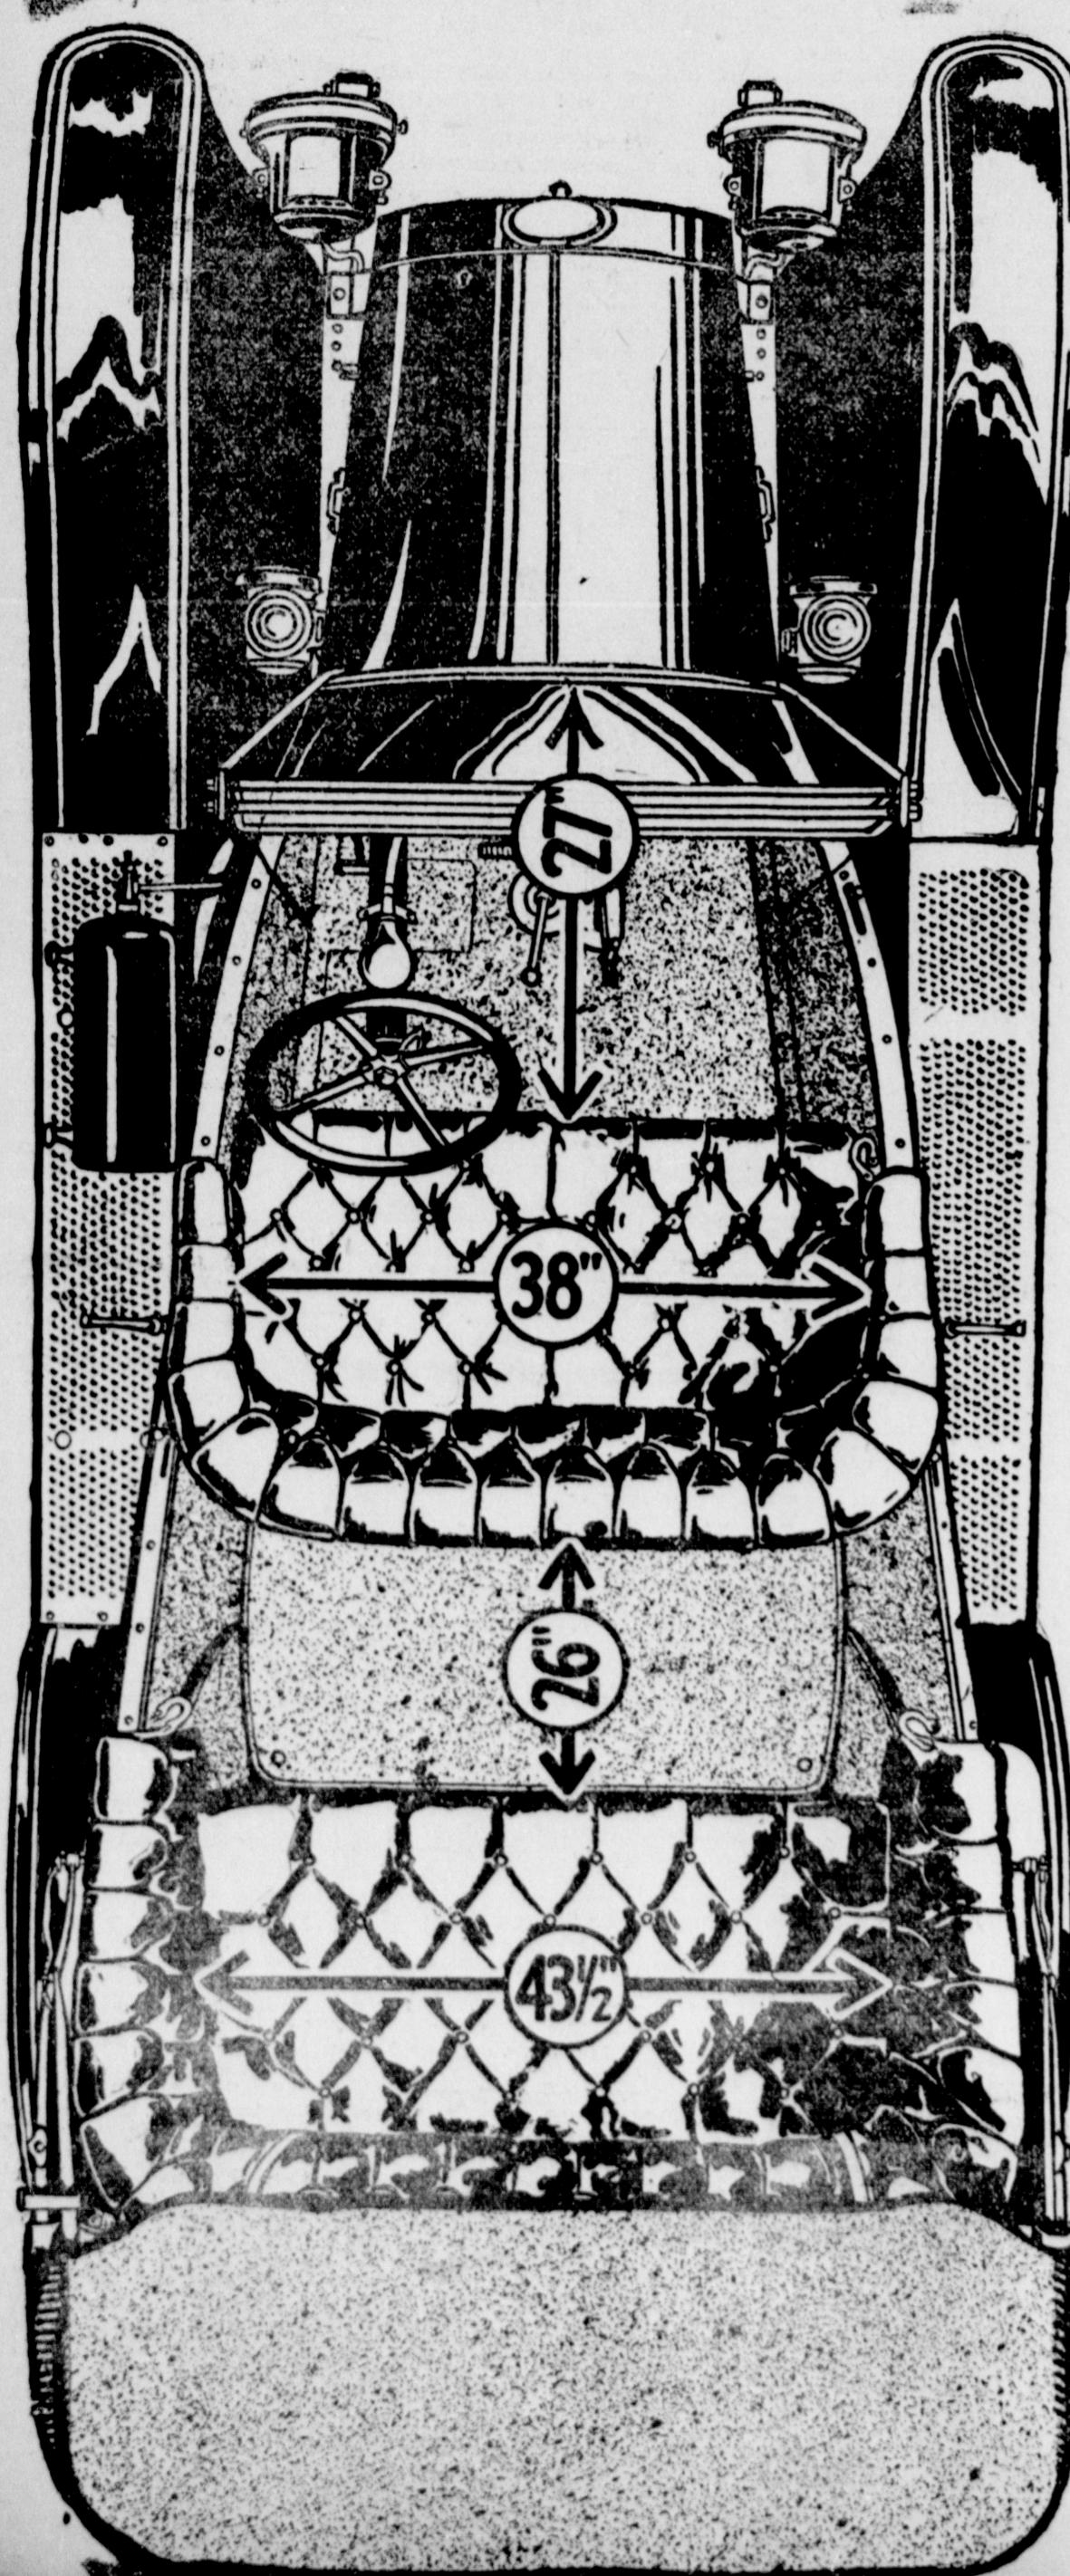

Paris, May 1.—New York, Chicago, Boston and several other American cities have sent exhibits to the international urban exposition, which was formally opened in Lyons today and will be continued until November 1. The primary purpose of the exposition is to illustrate what the municipalities of the world are doing to bring about the "city beautiful." Paris, May 1.—New York, Chicago, Boston and several other American cities have sent exhibits to the international urban exposition, which was formally opened in Lyons today and will be continued until November 1. The primary purpose of the exposition is to illustrate what the municipalities of the world are doing to bring about the "city beautiful."

</

At its Price, the World's' G

Check the Measurements

Leg room, depth and width of seats—with those of any car selling from \$1000 up to \$1400—you'll find this is a "big" car in inches as well as "immense" in efficiency. Note up-to-date streamline body design, left hand steer, center control and other features of the highest priced cars.

Maxwell

The Car that is Rapidly Set

IT IS predicted by shrewd judges that the Maxwell "25" \$750 car made by the Maxwell Motor Company, Detroit, Mich., will within a year be the fastest selling automobile in the world.

And this isn't such an extraordinary prediction when you consider the many very remarkably good points of the **Maxwell "25,"** and the present phenomenal demand.

A prominent writer who has intelligently studied the subject said recently that the time is coming when most families in the United States will own an automobile.

In many places **Maxwell "25s"** are used not only for pleasure purposes, but for business reasons as well, thus rendering a highly efficient double service.

These Detailed Specifications Prove Positively

The Maxwell "25" has absolutely every essential quality, and absolutely every necessary feature found in the very highest priced cars.

In actual economy of operation, in real ability to keep out of the repair shop, it not only equals but surpasses most cars which cost five times its price.

The Maxwell "25" weighs 1685 pounds. A wonderful "tire economy car." Has 30" x 3½" tires, front and rear, permitting rear tires to be shifted to front wheels to give extra long service. The motor is cast enbloc; 3½" bore; 4½" stroke; adjustable valves completely inclosed. Extra large crank shaft; bearings of bronze.

with babbitt lining.

More Power for Its Weight Than All Higher Priced Cars

Higher Priced Cars
The Maxwell "25" has a real "25" horsepower motor—which develops more power in proportion to the weight of the car than the engines of most \$5,000 automobiles.
The Maxwell "25" can pass most any car on hills "in high." It is a

Costly High Tension Magneto—Likely Highest Priced Cars

The Maxwell "25" has a Simms high-tension magneto, delivers the spark direct to the spark plugs in correct means no coils—**no make-shift master vibrators**ism that requires frequent delicate adjustments. works right, and stays right.

Transmission—4 Speed Selective Slide Gear, Center Control

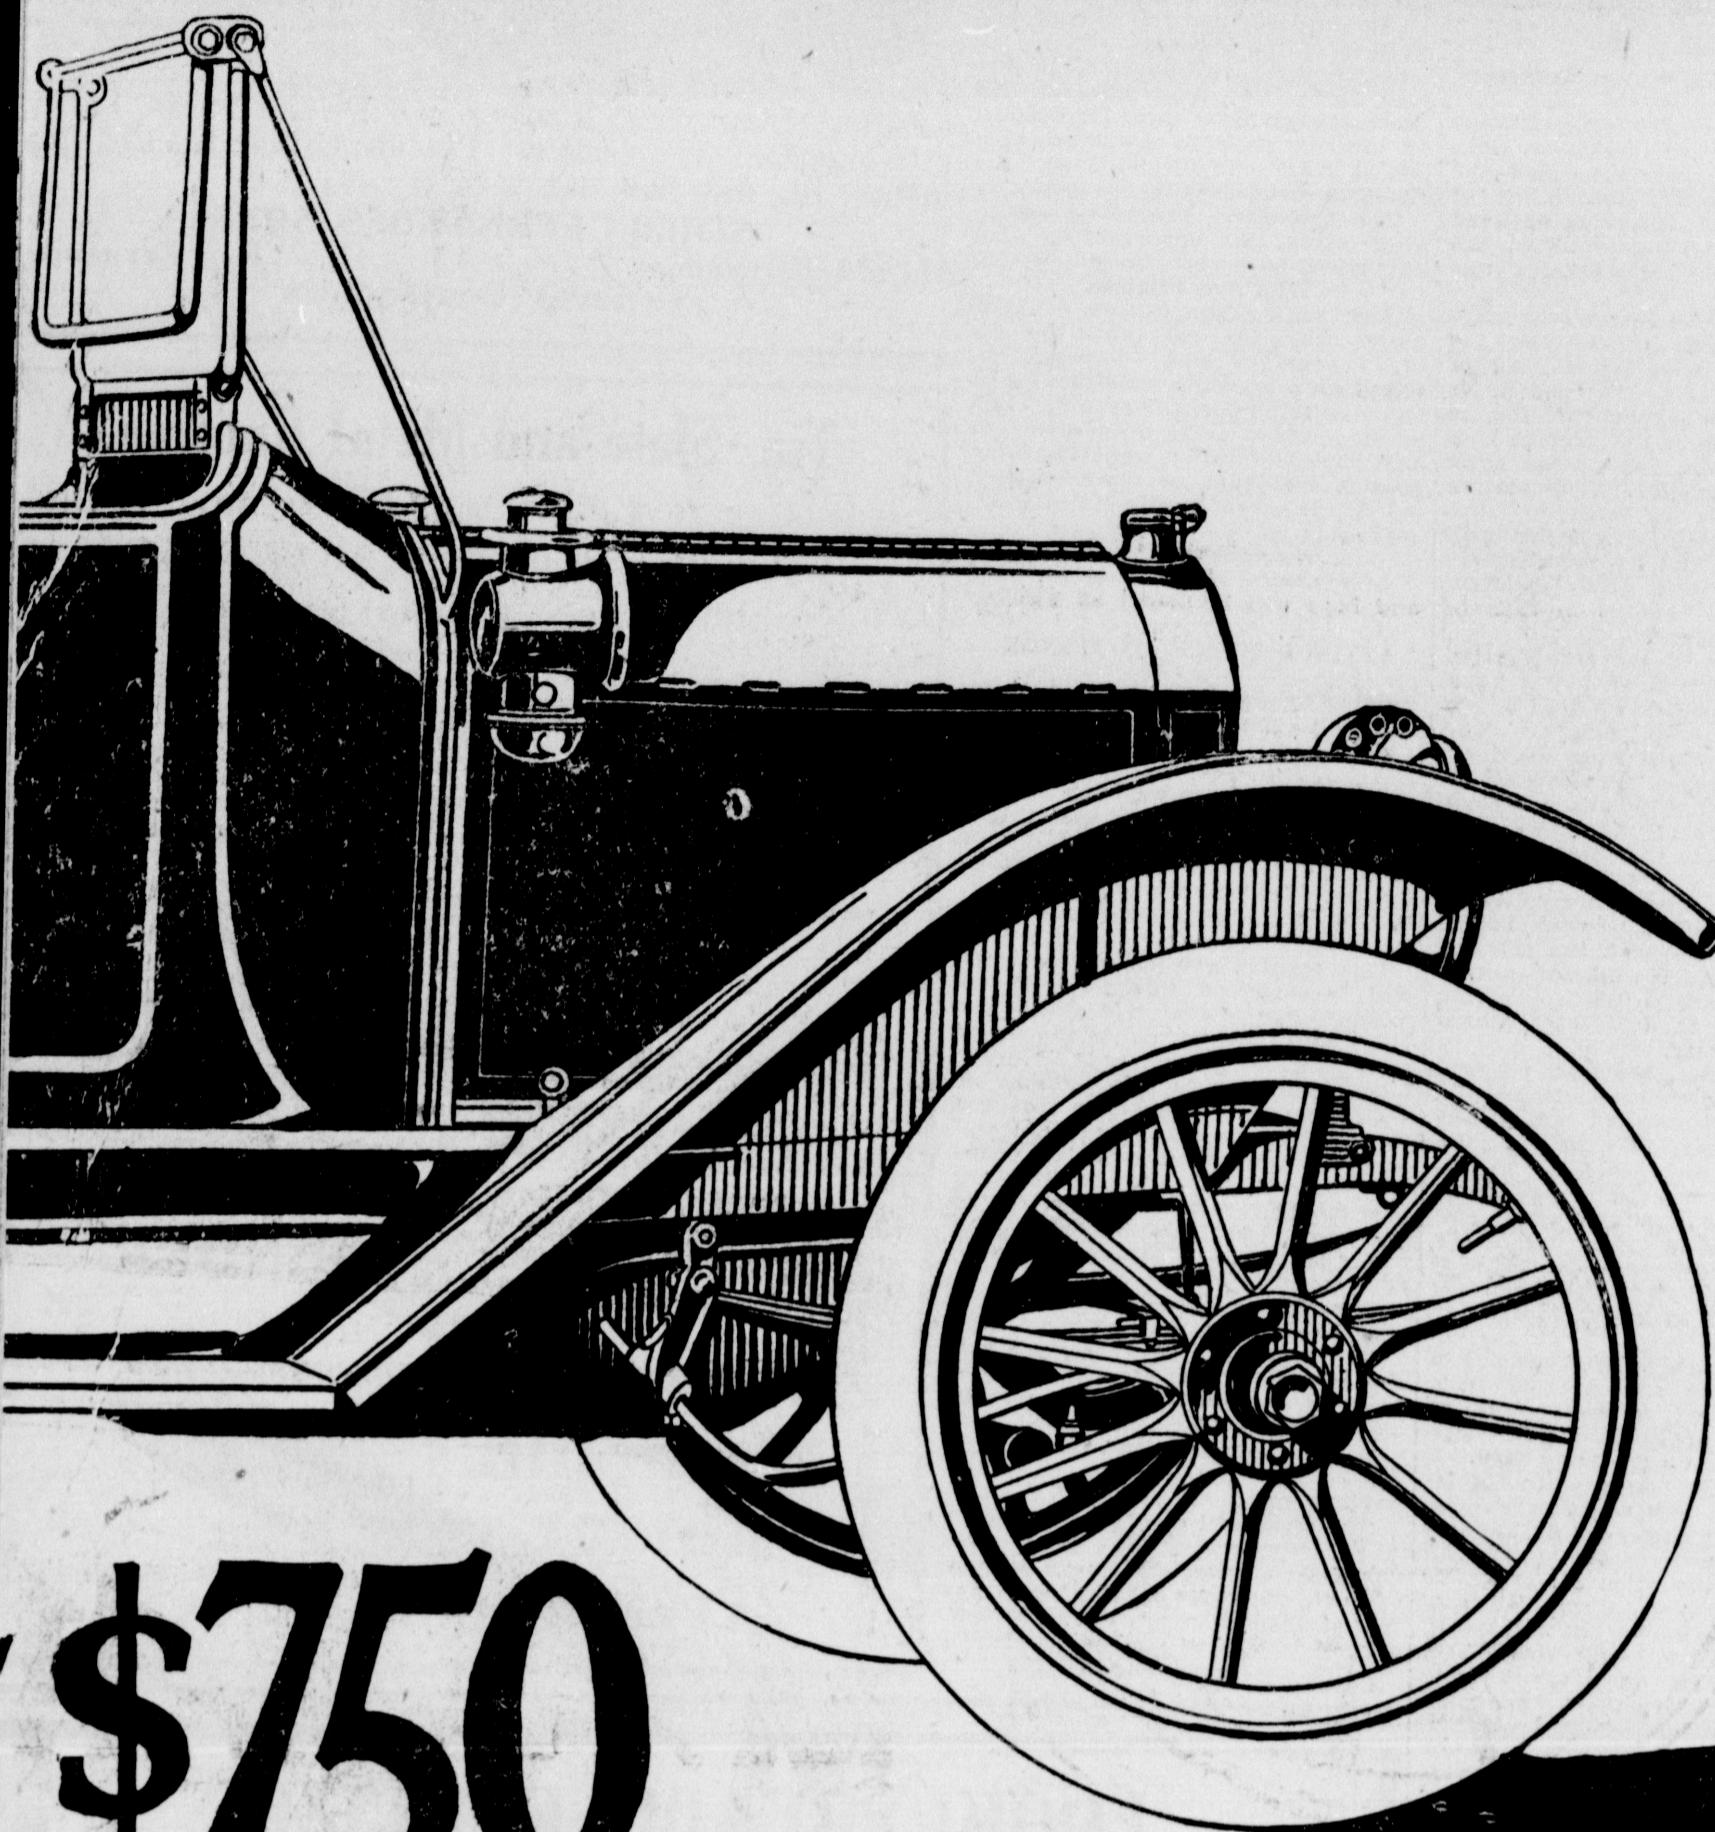

The Maxwell "25" has a 4-speed selective type transmission, forward and 1 reverse. The main shaft has Hyatt bearings at front end—bronze bushing babbitt lined at able cone clutch lined with motobestos. It takes without sudden gripping, and without undue noise.

Control—Brakes of Extra Strength

The Maxwell "25" has left-side, 16" steering wheel. There is plenty of room for a big man to drive without being cramped. The clutch and throttle control rods are inclosed in steering column.

The Selling Pace Everywhere

Maxwell "25" is unfailingly responsive. It at once attracts favorable attention and flattering comment.

When you buy a Maxwell "25" you do not have to be ashamed of it; you do not have to apologize for it; it isn't perpetually joked about.

When you buy a Maxwell "25" you get a car that looks good, costs double the money, and acts like a car that costs its price.

Operation is easy and economical. You are not coming constantly into your purse. It isn't a car that's a worry.

Implements cost—saves you money.

Maxwell "25" is a real joy. It is a car that stands up at all times and under all conditions, now and then. It is always right there at the right time. It gets you to your destination and back in the possible time and at least cost.

Plenty of smart style; it is a fast and sure hill climber; in fact, its hill climbing performances are records prove.

The Maxwell "25" \$750 is the car that you should own.

Our object in running this, the world's largest automobile advertisement, is to vividly impress you, to try and convey to you at a glance what a truly remarkable car the Maxwell "25" is!

We could have compressed this advertisement into half the space, but that wouldn't have satisfied us, nor would it have impressed you in a big way.

Big things should make big impressions.

And as the Maxwell "25" is a big thing in automobile advancement—the very biggest in its class—we want your attention now—at once!

But after all, perhaps the best and most convincing way to impress you is to show you the Maxwell "25" itself!

A shipment has just arrived, and we are very eager, indeed, to show you these beautiful cars, to demonstrate to you their many points of superiority.

Come and let us take you for a ride in a car that runs swiftly, beautifully and ideally as an exquisitely made watch!

Big Value You Get in the Maxwell "25" at \$750

Foot throttle or accelerator pedal with foot rest. Transmission Control Lever is in center of car and is operated by right hand.

The brake is contracting and the emergency brake expanding. They act on 12½" brake drums bolted to rear wheels.

Air-cooled, Economical, Springless Atomizer Type Carburetor

Maxwell "25" has a Zephyr Carburetor—Atomizer Type. This unusual high mileage per gallon of gasoline without carburetor trouble. Starts and runs right in any weather, controlled from the dash.

Improvement—Improved Splash System with Oil Saving Pump

Maxwell "25" has splash lubrication with a sturdy, slow-moving oil pump. This saves oil.

Capacity—A Real 5-Passenger Car of Comfort

Maxwell "25" is a real 5-passenger car. It carries 5 grown people comfortably. There is plenty of leg room.

Phenomenal Easy Riding Qualities

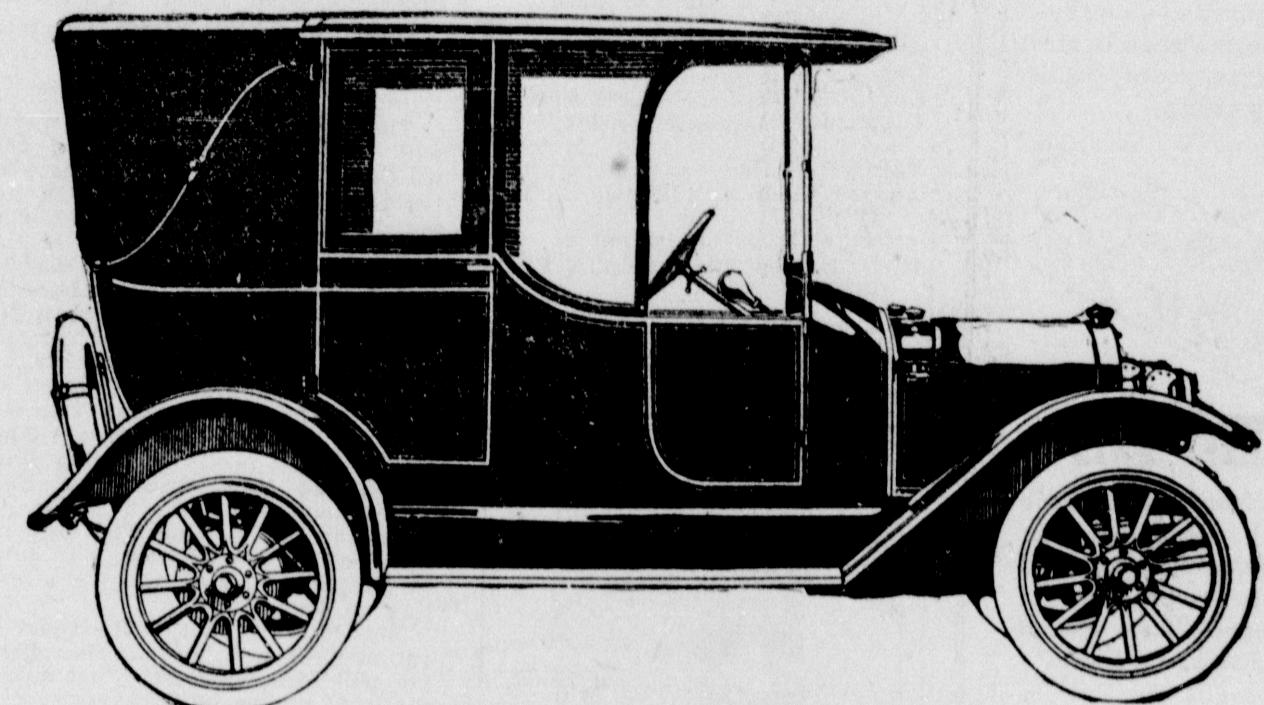

The Maxwell "25" has 4 semi-elliptic type springs. The front springs are 32" long. The rear springs are 40" long, fixed at front, shackled at rear, and mounted on a rocking seat. Absolutely no expensive shock absorbers or auxiliary springs are needed.

Fullest Equipment—Complete and of Unusual Quality

The Maxwell "25" has a perfectly fitted top with envelope. The top has the famous "Jiffy Curtains," which fold back in the top and can be let down in an instant without getting out of the car.

Full equipment of handsome lamps, Prest-O-Lite tank, full set of tools, jack, pump, Stewart speedometer, etc. At the rear of the car there is a strong, good looking tire-carrier.

You have no extras to buy. Everything comes with the car.

Maxwell "25-4" Town Car, \$950

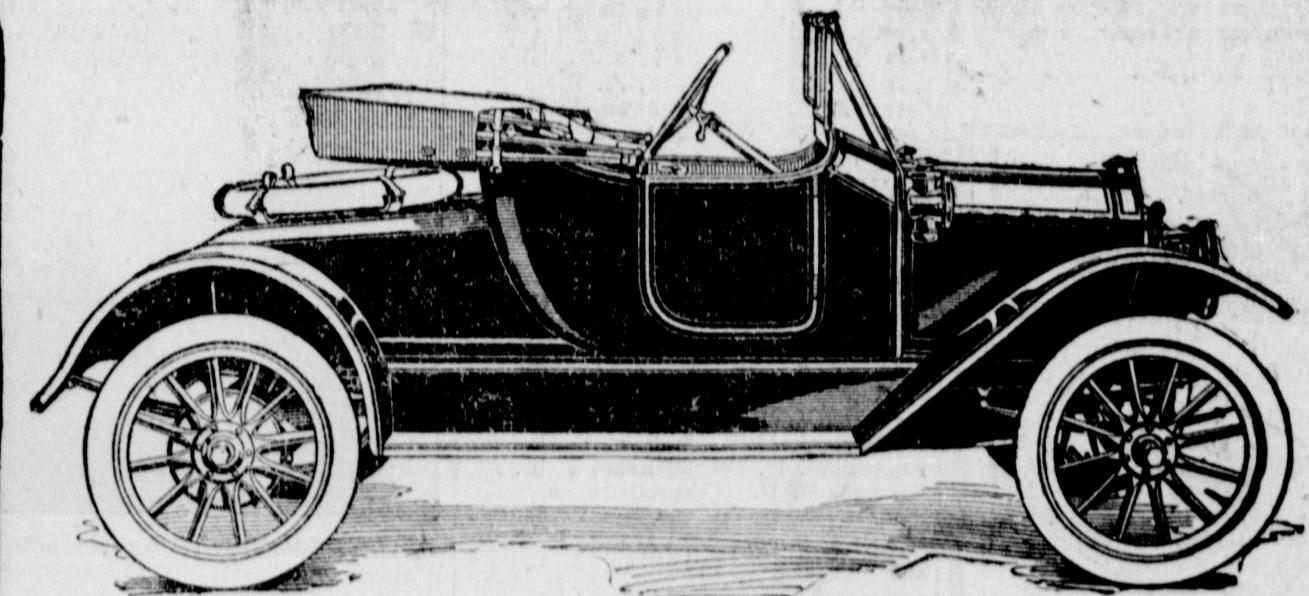

These sturdy Town Cars have a seating capacity for 6 persons—2 in the driver's seat and 4 in the rear. Landaulette type. This is the ideal car for hundreds of kinds of steady daily service.

These Maxwell Town Cars are light, flexible and strongly constructed—in fact, indestructible. They keep maintenance cost down to the minimum mark.

If you want a car for hire purposes, for taxi uses—a car that will stand up and deliver—a car that will make money for you day in and day out—this is the car that you should buy without hesitation.

In thousands of sections throughout the United States, particularly in the rural regions, there are many splendid opportunities to profitably operate a public hack or taxi. This is the car that renders real ideal service because of its durability and low upkeep cost.

Ask us about this Maxwell "25" Town Car. Price \$950, plus the freight.

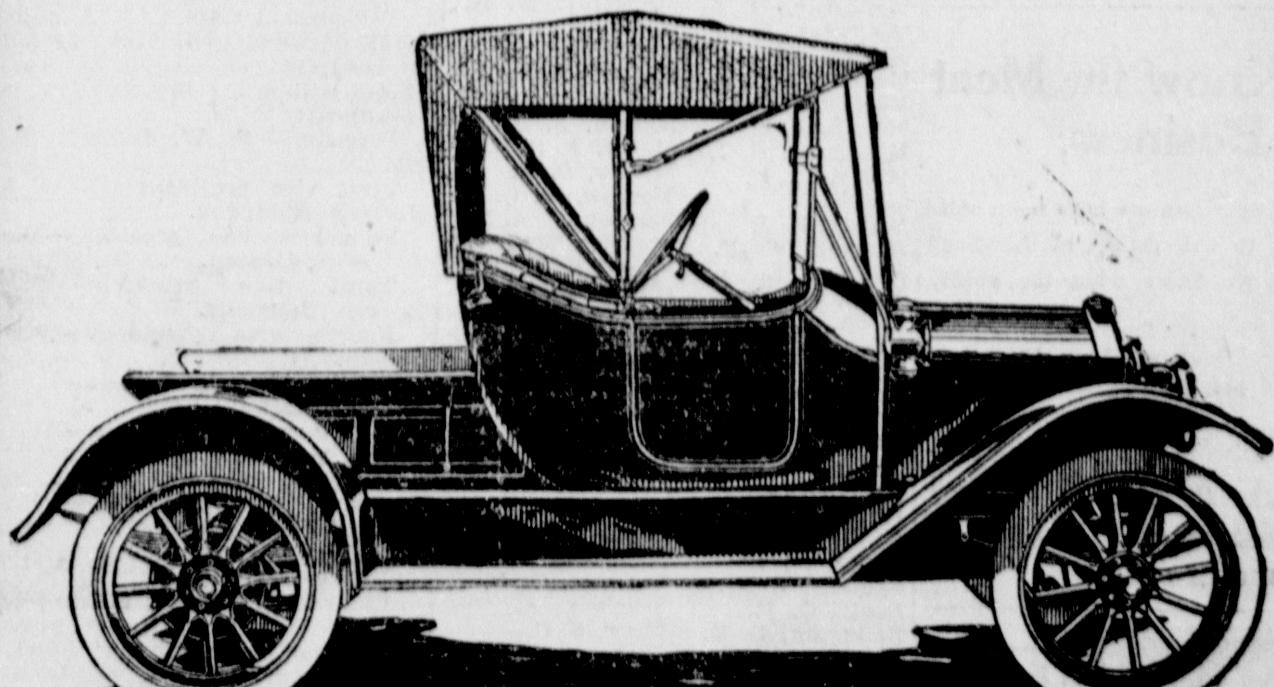

Maxwell "25" Roadster, \$725

A two-passenger car of imposing appearance, same specifications as the touring car. Just the car for the doctor or man whose business demands a car for quick and constant use.

An ideal equipage for the family of two or for the larger family to supplement the big high-priced car for handy runabout purposes.

Turtle deck is removable and express deck as shown can be fitted, making a splendid car for the business or man who wants a light delivery conveyance.

Price of Roadster with either deck \$725 plus freight, or \$750 with the two decks.

Maxwell "25" Roadster with Express Deck, \$725

HOLDING 24TH. ANNUAL SESSION

(Continued from Page Seven)

When I was a child of three, Mother used to say to me: Do you know your A-B-C?

Since those dead old words were spoken, Even Alphabets have been broken, And the question is today: Do you know your T. P. A.?

TRAVELERS over life's long road, Each one carrying his load— PROTECTION is the cry indeed, For it helps in time of need.

And you want ASSOCIATION. Outside the home and your relation; Love and Truth, combined with Wit, Constitute "Good fellowship."

This you'll find—and plenty, too— Among the bunch known as POST "Q". All other Posts be content— H. B. Ramey '1915' STATE PRESIDENT.

The following is a list of the present members of Post O:

W. W. Welch, Peoria,
State Secretary and Treasurer

Strider, F. K. Sullivan, W. E. Sutler, J. W. Suzz, I. Teeter, N. A. Thomason, C. Tibbals, F. E. Tunison, H. O. Wakely, R. M. VanAnglen, E. S. Waiton, J. W. Walker, R. C. Wilbert, W. F. Wilhite, H. C. Wilkin, J. G. Williamson, A. B. Wintler, G. W. Woodman, U. G. Wright, E. York, C. L. Williamson, A. E.

and the cities in which they are situated are as follows:

Post A, Quincy; Post C, Chicago; Post D, Springfield; Post E, Peoria; Post F, Cairo; Post G, Aurora; Post H, Canton; Post I, Joliet; Post K, Decatur; Post L, Bloomington; Post M, Danville; Post O, Jacksonville; Post P, Mt. Vernon; Post Q, Champaign; Post R, Belleville; Post T, Rick Island; Post U, East St. Louis; Post V, Abingdon; Post W, Galesburg.

A Bit of History of the Travelers' Protective Association.

The Travelers' Protective Association was organized in Denver, Col., June 30, 1890, and succeeded the Travelers' Protective Association of the United States, it having outlived its usefulness and accomplished the aims and objects for which it was formed.

The Travelers' Protective Association of America differs from the Travelers' Protective Association of the United States in that the latter did not provide any benefits for its members outside of the general benefits derived from concessions from railroads, hotels and transportation companies, while the Travelers' Protective Association of America provides a benefit for its members in case of loss of time from accident, and also death benefits in case of death from accident.

The first division will consist of all on foot, the delegations from the various posts of the state. This division will form on South East street, the front resting on East Street.

The second division will be composed of automobiles and will form on East State street, the front resting on East street.

The third division will consist of automobiles and floats. This division will form on North East street, the front resting on State street.

The head of the parade which will consist of the platoon of police, the band, the ladies in carriages will be under the direct command of the marshal and will form on East State street, west of East street.

When the order is given by the marshal to march the parade will fall into line in the following order:

Platoon of police. Grand marshal, Capt. John E. Wright. Jeffries Concert band.

Ladies in carriages.

First division in command of Louis A. Cain.

Second division in command of Larry Kraus.

Third division in command of Herman Cohen.

The line of march will be from the Pacific hotel west to the square; north on the square; west on the square; south on the square on West State street; west to Prairie street.

At this point the first division will counter march, the remainder of the parade continuing west to Westminster; south to College avenue; east to Prairie street; north to West State street.

The parade will then move in its original order east of the square; south on the square; east on the square; north on the square.

When the head of the parade reaches the Grand Opera House, the band and the first division will open ranks, form in two lines and face inward. The carriages, the second and third divisions will then proceed through the lines, move out of the way and disband.

STATE OFFICERS COME

WORLD'S LATEST FINANCIAL AND MARKET NEWS

STOCKS SHOW GENERAL EXHIBITION OF STRENGTH

Stocks of All Classes Participated in the Upward Movement.

New York, May 1.—The upward swing in stocks was continued today with a more general exhibition of strength than at any other time since the market began to recover from its recent decline. Stocks of all classes participated in the movement and in many instances the rise amounted to around two points. Each added day in which the peaceful status of the country's relations with Mexico is preserved causes a lessening concern over this factor which was such a disturbing influence last week. With England's home rule problem on a fair way to solution, crop prospects at home still brilliant and confidence in railroad stocks in better position than for some time previously. Eastern railroad stocks were especially strong owing to expectation of higher freight rates. Union Pacific benefited from the ruling of the courts upholding the plan for distribution of the special dividend. The March returns of the two largest eastern roads, Pennsylvania showed an increase of \$651,000 in operating income and New York Central showed a decrease of only \$371,000 for last month, illustrating a turn for the better in railroad earnings.

Mrs. Chester Wilson and Mrs. Dwight Kastrop, sisters of Mrs. Bolton, left yesterday for an extended visit with her.	

ESTIMATE 1914 WHEAT CROP TO BE GREATEST EVER

Estimates on Wheat smash Values for New Crop Months—Corn Follows Same Course as Wheat.

Chicago, May 1.—Estimates that more than 3,000,000 bushels more wheat would be harvested in the United States this year than ever before smashed values today for new crop months. May contracts, however, were in strong hands and scored a net gain. The market as a whole finished weak, at a range varying from 5@6c decline to 1c advance. Corn, too, closed irregular, 5c down to 1c up; oats unchanged to 1c lower and provisions with a loss of 2c to 17c.

Extreme weakness which developed in distant futures of wheat came after they had bulged in sympathy with a sharp upturn for May. Deliveries here on options for the current month turned out to be only about half as much in volume as expected. Much activity was shown in speculative wheat transactions in new crop months. A single leading trader alone took nearly 1,600,000 bushels from other prominent dealers who had opposite ideas in regard to probable changes in value.

Much the same situation came about in corn as in wheat. The May deliveries or corn although heavy, passed into strong hands, but deferred futures were undecided selling pressure from bears. Shipments from Argentina exceeded what had been looked for. Oats ruled comparatively firm as shippers received most of the May deliveries and were expected to diminish stocks here. Provisions eased off on account of unloading by packers. Steadiness in the hog market helped to prevent a more serious decline.

FLORETH COMPANY

BEARDSTOWN IS AWARDED FIRST PLACE IN DECLAMATORY CONTEST

Miss Helen Shriner of Pittsfield Wins Second.—Floyd Williamson, the Jacksonville Contestant, Gets Third.

In the annual declamatory contest held in connection with the Western Illinois High School League meet Friday morning at the Opera House, Miss Ona Sayer of Beardstown was awarded first place, Miss Helen Shriner of Pittsfield, second, and Floyd Williamson, of Jacksonville, third.

The contest in declamation at the opera house was fairly well attended and as a matter of course the spectators were deeply interested in the efforts of the speakers and the result.

The participants all did admirably and there was not a poor one among the whole list. The selection comprised a wide scope, grand, humorous and pathetic and it was a difficult task to say who did the best. All showed careful preparation, devoted study and not in a single instance was there the slightest lapse of memory and some of the number were rather long too but all had been thoroughly committed and were delivered without any hesitation.

All the speakers were fully composed and if any of them had stage fright it was wonderfully well concealed. Each speaker was well represented in the audience and each had a share of special applause and appreciation.

The vocal numbers, first by Miss Hartsock and second by Miss Scheibel, were both admired. Each young lady had no trouble in filling the great auditorium with a volume of melody and these numbers were also most heartily enjoyed.

The judges were: Prof. W. A. L. Berger, Illinois State Normal; Dr. Ross L. Finney, Illinois Wesleyan University; Prof. A. H. Walrath, Macomb Normal, and they had no easy task to perform and while of course all couldn't be satisfied there was general acquiescence in the decision.

Certain it is, Jacksonville had good reason to be proud of her representative, Floyd E. Williams, a talented young man with rare powers which he has well learned how to use.

The program was as follows:

Vocal Solo—Carrissima (Arthur Penn)—Miss Fern Hartsock.

Virginia—"The Sign of the Cross" —Helen Skiles.

Greenville—"Hagar" (Eliza P. Nicholson)—Blanche Tripp.

White Hall—"Ole Mester"—Sylvia Whitlock.

Ashland—"Not at Home"—Mae Atterberry.

Tallula—"The Death Disk"—Eunice Stewart.

Pittsfield—"The White Cow"—Helen Shriner.

Jacksonville—"Going Home" (Elias Day)—Floyd E. Williamson.

Petersburg—"Billy Read and the Big Lie"—Beatrice Worthington.

Beardstown—"The Heart of Old Hickory"—Ona Sayer.

Winchester—"Friendship Village Evening Daily-Extra"—Lucile Hamilton. (Lona Gale).

Vocal Solo—Muselton Song from LaBoheme Puccini—Miss Rebecca Scheibel.

For a Torpid Liver.

"I have used Chalberlain's Tablets off and on for the past six years whenever my liver shows signs of being in a disordered condition. They have always acted quickly and given me the desired relief," writes Mrs. F. H. Trubus, Springfield, N. Y. For sale by all dealers.

FOR BANTAMWEIGHT TITLE.

London, May 1.—In a bout advertised for the world's bantamweight championship, Charley Ledoux of France, and Johnny Hughes of London are to meet for 20 rounds in Cardiff tomorrow. Ledoux has held the French title, but his bouts in England and on the occasion of his visit to America several years ago did not stamp him as a world's champion. Hughes is a veteran of the London ring and stands at the head of his class. The meeting at Cardiff will be the third time that Hughes and Ledoux have faced one another in the ring. In their first bout Hughes lost on a foul in the second round and in the second contest he lost a close decision on points.

Charles Gibbs and family drove into the city yesterday from Lynnville in their Mitchell car.

Mr. and Mrs. Ornsby Dawson, Mrs. Ollie Woodall, Mrs. Kate Coulter and Mrs. J. B. Thompson all came to the city yesterday in Mr. Dawson's Mitchell car.

John Stock and B. F. Graham were arrivals in the city yesterday from Arenzville in Mr. Stock's Rambler car.

P. R. Nelson of Winchester journeyed to the city yesterday in his Ford car.

Edward Beggs and family made a trip from Ashland to the city yesterday in their Hudson car.

Clarence Quintal of Bluffs made a trip to the city yesterday in his Mitchell car.

J. C. Lathrop drove up to Jacksonville Friday in his Carter car which he recently purchased. Mr. Lathrop is agent for the Carter car in Morgan and Scott counties.

This weather suggests a suit of warm weather clothes at Knoles'.

WESTERN ASSOCIATION GETS STARTED.

Oklahoma City, Okla., May 1.—The reorganized Western Association of Baseball clubs started on its first pennant race today, with games scheduled to be played at Joplin, Mo., and Oklahoma City and Tulsa, Okla. Fort Smith appeared at Joplin. Muskogee at Tulsa and McAlester at Oklahoma City. The schedule calls for a season of 140 games, ending September 13. Class C baseball will be played this year. If the association is successful this season it is the plan of the promoters to add two cities to the circuit next year and place the organization in Class B. The claim is made that the association has the largest territory to draw from, with the shortest jumps between 100 and 150 miles.

WILLIAM BARR BROWN CAME NEAR TO SERIOUS ACCIDENT

Fainted While at Steering Wheel of His Automobile.

Wm. Barr Brown, Jr., met with an accident Friday morning at his farm home near Island Grove which came near ending disastrously. As it was Mr. Brown was not injured although his big old automobile is somewhat the worse for the wear. About 8 o'clock Mr. Brown started in the car to drive to the station a colored man, Homer Smith, who was riding on the foot board of the car in order to be ready to open the gate leading out to the roadway.

They just had left the house when Smith noticed Mr. Brown fall back in his seat unconscious. Instead of reaching over and stopping the car Smith jumped from the foot board and ran hollowing toward the house. The car was running on low gear and plunged forward until it ran into a tree. Members of the family hastened out and found Mr. Brown had simply suffered an attack of vertigo but was recovering.

It was fortunate indeed that the car was running at a low rate of speed otherwise the results would certainly have been serious. As it was, the car was considerably damaged but Mr. Brown was not thrown out. Dr. A. M. King drove out in his car to see Mr. Brown but found that he had only been temporarily sick and really did not need a physician.

AUTOMOBILE NOTES.

Clarence Duckett and family were up to the city yesterday from Champaign in their Hudson car.

E. F. Walker of Exeter visited the city with his family in his Ford car.

J. P. Woods, G. N. Woods and R. S. Woods and son all drove in from Franklin in J. P. Woods' Ford car.

Luther Hornbeck and family were visitors yesterday from Franklin coming in their Ford car.

Chas. P. Joy was in from Joy Prairie yesterday with his family to attend the meet in his Cadillac car.

Oliver Coulter of the west part of the county came to town yesterday with his family in his Oakland car.

Roy Jordan of Springfield drove over to Jacksonville yesterday in his Overland car.

Edward Landreth and family, residents of Scott county, came to the city yesterday in their Ford car.

Thomas Graves and family, residents of Markham precinct, were in the city yesterday arriving in their McFarland 6 car.

Thomas Bean and family helped represent Winchester in the city yesterday, coming in their Ford car.

Mr. Wall and friends came up to the city yesterday from Wate Hall in their Ford car.

Edward Joy, wife and father, all came into the city yesterday from Joy Prairie in their Cadillac car.

Mr. and Mrs. John M. Pine, Henry Oakes, Mrs. McClellan and Mrs. Murray all came up from Bluffs yesterday in Mr. Pine's Ford car. They came by way of Winchester and report the trip from the capital of Scott county made in forty minutes.

Fred Leach and sister came to the city yesterday from the west part of the county in their farther's Mitchell car.

A. L. Leach of the west part of the county drove to the city yesterday in his Mitchell car.

Charles Ransdell journeyed from Franklin precinct to the city yesterday in his National car.

Albert Bush and family were arrivals in the city yesterday from Merritt in their Mitchell car.

Mr. and Mrs. Robert Allen of the vicinity of Riggston came to the city yesterday in their Cadillac car.

Abel McCullough and family were sojourners in the city yesterday, coming from Riggston in their Cadillac car.

John Stock and B. F. Graham were arrivals in the city yesterday from Arenzville in Mr. Stock's Rambler car.

P. R. Nelson of Winchester journeyed to the city yesterday in his Ford car.

Edward Beggs and family made a trip from Ashland to the city yesterday in their Hudson car.

Clarence Quintal of Bluffs made a trip to the city yesterday in his Mitchell car.

MORTUARY

Kirkpatrick.
Mrs. Susie E. Kirkpatrick, aged 56 years and 6 months, died Friday morning at 8:30 o'clock after a year's illness. She was born in Peoria and has been a resident of Jacksonville for several years. She is survived by one daughter, Mrs. Ethel Pass, a grand daughter, Mary Agnes Rice, and a sister residing in Peoria.

Arrangements for the funeral will be announced later.

FUNERALS

Yeck.
The funeral of Louis Yeck was conducted from the M. E. church in Concord Friday afternoon at 2:30 o'clock in charge of Rev. H. J. Florath. It was one of the largest attended funerals ever held in Concord, friends being present from Jacksonville, Chapin, Beardstown, Meredosia and Arenville.

Music was furnished by the choirs of the three churches, the M. P. church, Christian and M. E. church, Miss Deterding presiding at the organ.

The flowers were very beautiful and were cared for by six granddaughters, Mrs. Louis Hess, Mrs. George Johnson, Misses Mabel Yeck, Irene Valentine, Minnie Yeck and Grace Yeck.

The remains were laid to rest in the Concord cemetery and the bearers were Messrs. George Brown, Jas. Smith, Wm. Cooper, Milton Hamm, John Ratcliff and William Brockhouse.

Noonan.
Agnes Isabel Noonan, daughter of Mr. and Mrs. John Noonan of 812 West North street, died Friday, May 1, at 12:10 a.m. The child was born Tuesday morning, April 28. Funeral services were Friday afternoon at 2 p.m. at the Church of Our Savior, Rev. F. Formaz officiating. Interment was made in Calvary cemetery.

ADVERTISING THE MAXWELL.
In this issue appears a two page advertisement of the Maxwell motor car, probably the largest automobile advertisement ever printed in Morgan county. Kennedy Bros. are agents for the Maxwell which today has numerous enthusiastic owners in this vicinity. The Maxwell presents at very low price the same qualities of comfort, speed and durability which are included in many cars sold at figures hundreds of dollars higher. Reading about the Maxwell's many good points should convince the prospective auto owner that it represents the greatest car value for the least money and at any rate a demonstration of the car will make clear the point of superiority claimed.

OPEN MEETING.
The Belles Letters Society of the Woman's college will hold an open meeting Saturday night at the college at 8 o'clock.

and Finance at City Hall until 11 a.m., Saturday, May 2, A. D., 1914,

for one Water Tube Boiler in accordance with specifications on file at the office of the City Clerk.

All bids should be sealed and marked "Bids for Boiler" and addressed to the undersigned.

Charles R. Krollenberg, Commissioner of Accounts and Finance.

The city reserves the right to accept or reject any or all bids.

Jacksonville, Ill., April 21, 1914.

MANY SUBJECTS DISCUSSED AT BUSINESS SESSION OF LEAGUE

Officials Voted That Next Year's Meet Should Be Held in Jacksonville—Cannon Who Had Completed Five Years for J. H. S. Withdrawn by Principal Collins—Officers Re-elected.

A long and important business session of the W. I. H. S. L. was held Friday morning in the Opera House. There was a warm discussion over the eligibility of certain members and Principal Collins of Jacksonville high school withdrew Cannon, the crack athlete from the high school, according to a ruling he had received from the board of appeals of the state association. Supt. Russell of Beardstown offered a suggestion that the meet be held in Beardstown next year but the members voted to come to Jacksonville in 1914.

The meeting was called to order by Supt. H. G. Russell and bills were ordered paid and other matters of a similar character settled. President C. H. Rammelkamp of Illinois college appeared before the board and stated that he was glad to have the association hold their meets on the Illinois college campus and was glad to furnish officials and marshals for the day. The \$40 paid for the grounds as determined by the superintendents and principals was satisfactory. As far as the officials of the association moving the meet from the campus to some other city he would leave that with them.

The mention by Coach Harmon that some of the entries had been sent in signifying that some of the men were above 21 years of age was the cause of much discussion. Supt. Collins stated that he had so signified two men from Jacksonville who were above 21 years of age, Carter and Cannon. Mr. Collins cited the law on the age question which reads "full age in male or female is 21 years, which age is completed on the day preceding the anniversary of a person's birthday." Prin. Collins read a letter on the age subject from H. E. Brown, treasurer of the association of the appeal board of the Illinois Athletic Association in which he says, "that no person may take part in any high school inter-scholastic contest under our rules, who is 21 years of age at the opening of the school year." Mr. Collins stated that he had entered John Cannon under condition. He had received a letter from the appeal board of the Illinois H. S. Association, in answer to a very complete brief of Mr. Cannon's conditions. Mr. Collins had written asking, "how many years could a student belonging to a high school association represent his school in athletics and would the fact that the student had participated in athletics during his 8th year work, not through deception but registered from the 8th grade take away the right of one of his years to represent his school in athletics?"

F. M. Giles, president of the board, on the 18th of April, wired, "Student is ineligible, see Section 11 by-laws." The same day Henry E. Brown, secretary of the association writes "that the board of appeals holds that the boy's year of competition as an 8th grade pupil would have to be considered as one year of competition under the rules and he has now competed for 4 years and would have no right to further compete."

The comedy was full of action. In it were shown fraternity and sorority life, football, college society, intrigue, rivalry, plotting and counter-plotting, conspiracy and love—and every little while there came the little freshman "Imp" to upset careful plans and solve difficulties.

Much of the credit for the play's success is due to the work of the dramatic director, Miss Frances Marie Scott, of the high school faculty.

The hours of training were long and the time for adequate preparation all too short. Miss Scott's patient resourcefulness gave life to the play.

Society Brand
CLOTHES

The Word of the Wearer

The Best things said about

Society Brand Clothes are said by the men who wear them—and after all this is the best test. Too often the suit well portrayed falls down on the back of the wearer. These clothes attire a man in good taste and style, serve him well in and week out and still hold their shape and style to the end of the season. We welcome a comparison of values at any price.

Excellent Spring Suits

\$20 \$25 \$30

A superb range of styles and patterns for the man who wants the best value obtainable.

MONEY

It's MONEY that does the business

Get this one truth firmly fixed in your mind to start with:
The man who pays cash saves more than 20 per cent and gets better goods and service than the man who runs a book.

Prove this for yourself by getting prices from the advertised bargains at the cash store and comparing them with what you have been paying on charged accounts.

Come and start a credit with us and we will loan you the MONEY to pay cash for everything and after you have once established a credit with us you can get MONEY on a moment's notice.

EVERYTHING STRICTLY CONFIDENTIAL

Call, Write or Phone III. or Bell 449 and our agent will be pleased to call at your residence and explain our liberal plan.
